HEALTHY TREASURES, FOR A HEALTHY LIFE

2026 CATALOG

YOUR HEART WILL ALWAYS PURSUE
WHAT YOU TREASURE. MATTHEW 6:20

Here is a Great Big Hello to All of Our Wonderful Customers!

As usual it is our pleasure to present you with our annual catalog where you not only will find lots of great quality products, but also great prices. Our goal, like always, is to strive for high standards such as quality products and customer service. We would not be able to do this without the amazing team here at home base and our highly supportive customers that patronize us.

You will be finding quite a few new products, some that were requested from our customers and others that we found to be a great fit for our company. If you are ever looking for a specific product that you can't find in our catalog, just ask for it when you speak with customer service and if it is something that we deem appropriate in our area of expertise, there will be a good chance we will be able to help you out.

Most of our customers are familiar with our star rating system throughout the catalog, but for those of you who aren't, we will take some time to explain. We created a 5 ★ system for all of our products to better help you navigate through all the different products on a quality basis. This system is not from the brand or products own development. It is totally done by our in-house team that is dedicated to transparency and led by a health professional. Our idea of quality might vary from the brand or product therefore our rating might not match their own. Ingredients, manufacturing processes, and potency are some of the things we look for when deciding our rating. For example; if all the ingredients are of great quality, but loaded with sugar, then a 4 ★ might be given due to the content of too much sugar.

If for any reason, you might be looking for a more personalized experience for your health versus just taking daily supplements and not having a clear picture of where you want to be in your daily health journey, then we might have the solution for you. Our sister company; Key Harmony Nutrition Center, will guide you through all the complexities of a health routine. Whether you are looking for testing modalities, health coaching, personalized protocols, dietary plans, and even in-house therapies, the nutrition center team will try their best to direct you in the right direction. The center is directed by a health practitioner who specializes in health consulting through the use of lifestyle interventions and nutraceuticals. They are only a phone call away by calling Kauffman's Treasures number and pressing extension 2.

Finally, a big THANK YOU to all of our amazing customers for their loyalty and support, and also the wonderful team here that make it all happen for you. We are truly humbled by this support and feel absolutely grateful to be able to experience these blessings of love from our community of health minded people. We give all honor and glory to our almighty God whom we serve.

Healthy Blessings!

It can be substituted cup for cup with other whole grain flour in most recipes. However, sometimes the amount of liquid in the recipe will need to be reduced.

Savory Sprouted Spelt Crackers
STUTZMAN'S FARMS ★★★★★

All the nutrition a plant requires to begin itself is stored inside it's seeds. Nature packs protein, starch, fat, and enzymes into a protective case to give seeds their best shot at survival. When a grain sprouts, those enzymes activate and begin to turn the seed's stored nutrients into more usable forms. The same process that makes that stored nutrient easier for the seed to use, also makes it easier for people to use. Sprouted whole grains may be easier to digest, so enjoy a healthy tasty cracker for a snack.

The AHCC® in Essiac Gold® has been found through over 30 human clinical trials to support immune health, promote macrophage activity, T-cell and NK cell activity and longevity. Unlike the traditional Essiac® herbal tea powder, there is no need to brew as the vital plant nutrients have already been extracted into a powerful herbal capsule that is 4x to 6x more concentrated than the brewed tea. The herbs are macerated, then the vital plant nutrients are extracted at low temperatures to ensure maximum potency and superior absorption.

Quercetin
 NUTRAMEDIX ★★★★★
 Quercetin is in a flavonoid family known as flavanols that may support the body's normal detoxification processes related to antioxidant activity. Some research suggests that flavanols also support zinc transport in cells. Most recently, these chemicals have been investigated for how they affect the process of cell division and communication between cells, which can be altered by normal aging. In addition to antioxidant support, this is now a major area of research into the health-supporting properties of flavonoids. Taking quercetin supplements with meals and snacks throughout the day may improve your body's ability to use quercetin. When taking a quercetin capsule, it is important to do so daily as the body processes and eliminates quercetin within six to 28 hours.

Horomonestasis 1, 2, & 3

Puberty, Childbearing Years, Perimenopause, & Menopause

There are three hormonal help formulas for the very different phases of a woman's life. Hormonestasis - Phase 1 is designed for the unique challenges of puberty when a little girl is beginning to develop into a young woman. Phase 2 is designed for the challenges being faced during the childbearing years and Phase 3 is designed for the special needs of women in their menopausal years.

All three formulas have the same base, meaning that the foundational formula of all three Phases are the same. This is because no matter what phase of life we are in, it is important to keep our hormones as balanced as we possibly can. This is what the foundational herbs are designed to do. They work synergistically together to give our bodies the building blocks it needs to create the hormones our body needs. In other words, we are not forcing a certain amount of progesterone or testosterone or estrogen into the body the way that a pharmaceutical would. We are giving the body nutrition and building blocks which it can convert into what is needed.

Our body is constantly trying to maintain homeostasis (balance). It is running checks 24/7 to determine what we need in order to maintain homeostasis. When it lacks the components/building blocks it needs, then an imbalance results. Nothing is an isolated event in the body, so when an imbalance occurs, the rest of the body will go into action to try to compensate for the imbalance. This is when we begin to see the symptomologies which result when the body is out of balance. In the case of a hormonal imbalance, there are many symptomologies which might present including: hair loss, mood swings, weight gain, weight loss, depression, irregular cycles, heavy bleeding, infertility, hot flashes, night sweats, loss of libido, fatigue, muscle weakness, increased sensitivity to cold or heat, acne, anxiety, irritability, dry skin, and constipation. There are many more, but this gives you an idea of how much the entire body can be impacted by allowing a hormonal imbalance to continue. Hormones are your body's chemical messengers. Produced in the endocrine glands, these powerful chemicals travel around your bloodstream telling tissues and organs what to do. They help control many of your body's major processes, including metabolism and reproduction.

Frontier Biotics is a non-dairy probiotic formulation produced from an all-natural source of beneficial microorganisms. It is designed to support digestive tract health and provide ingredients that support proper immune function and microbial balance in adults.* Frontier Biotics contains some species of the numerous microorganisms that naturally populate the human gastrointestinal tract. Probiotic bacteria, or "good bacteria," promote favorable balance of intestinal microflora. The human intestines harbor between 300 and 1000 different species of flora. Ultimate shake is a unique formulation that supports detoxification, and can be used as part of a liver-cleanse protocol. With 15-18 grams of protein per scoop, Ultimate shake makes a filling snack, or alternatively as a replacement or addition to a small meal. Ultimate shake features pea, rice, and pumpkin as its protein source. These vegetable protein sources provide amino acids required by the body for people who are vegetarians, have food allergies or sensitivities, or who are looking for a hypoallergenic meal replacement. These essential amino acids must be obtained through diet; the human body does not synthesize them.

Body Detox INSPIRED NUTRITION ★★★★★

Body Detox is important for removing heavy metals and pesticides. It can also help reduce any Lyme disease 'herx' reactions for sensitive people. If heavy metal build-up is the issue, people will take 3-5 bottles spaced out through a year. Why spaced out? Many detoxifiers clean the blood, not the cells. Half a bottle will clean the blood, and then you can wait a month for cells to release more heavy metals and toxins into the blood to do another half bottle to cleanse it again. Eventually your body cells detoxify to a low level. Then, 1-2 containers per year (depending on your environment) keep the metal and pesticide levels low.

Pollution Clear
FOUNDATION OF LIFE ★★★★★

Pollution Clear supports healthy bile production and flow. The liver naturally produces bile - it is the body's inherent transport system for the removal of toxins. When it is impaired our bodies can "build up" with toxins, taking a toll on overall health and energy. Bile is also involved in various important physiological processes such as cholesterol and blood sugar metabolism, thyroid hormone physiology and lipid and fat soluble vitamin absorption. This product contains artichoke to support bile flow and the liver; building blocks of bile - glycine and taurine; phosphatidylcholine to support bile fluidity & cell membranes and the herb dandelion to stimulate bile flow. It is best taken with meals three times a day.
21684 (120 caps)..... \$46.40*

Pollution Escape
FOUNDATION OF LIFE ★★★★★

Pollution Escape delivers an easy-to-use, all-in-one toxin binder that has an extremely broad range in its ability to bind various toxins (heavy metals, environmental toxins, viruses, etc). Binding of toxins with this product allows proper completion of detoxification. During normal detoxification, the majority of toxins are excreted into the bile, which then travels from the liver to the intestines - the endpoint being elimination through defecation. Many toxins can be reabsorbed through the intestines after excretion into the bile, which causes them to recirculate in the body and cause much harm. Using a comprehensive toxin-binder is imperative to ensure proper elimination to maintain a healthy body. It is best take either before bedtime or during the day at least 60 minutes away from medications or other supplements.

UltraLaurin INSPIRED NUTRITION ★★★★★

The Ultimate Monolaurin

UltraLaurin may be used for Lyme disease, Herpes, Shingles, Hepatitis and EBV.

First time use: Start with 1/4 scoop (20 pellets), or less, the first 3-4 days. Increase to 1/2 scoop for 3-4 days. Then increase to 3/4 scoop for 3-4 days and so forth until at full dosage. Regular monolaurin users can skip the slow start-up, if desired. (Note: Possible Herxheimer reactions)

Children: Adjust for weight, i.e. 50# is about 1/3 of an adult, so 1/3 dosage.

How long? A person simply takes the full dose of UltraLaurin until they are well—a few weeks for a simple bacterial infection and up to 8+ months for Lyme disease and some other illnesses. Following a protocol, occasional days can be missed. Lower dosages can be used; however, results may take a little longer. For viral challenges, many people start with UltraLaurin first. If, after a few months, they are not seeing the intended results, they will consider using 2-3 bottles of Bio-Fibrin to reduce potential biofilm activity and increase UltraLaurin's access to the pathogens.

Renewal Complex NEW SKIN DRINK ★★★★★

This state of the art skin treatment lightly moisturizes and is recommended for all skin types. It contains DMAE, alpha lipoic acid, and C Ester. Glycolic acid, an acid derived from sugarcane, has been added to slough off dead skin cells that make the skin dull and sallow, revealing a younger, and fresher skin underneath. Those who have acne prone, oily skin will have fewer breakouts, and when breakouts do occur (usually due to hormone fluctuation), they notice fewer blemishes and those heal quicker, old scars, and dark spots begin to fade. People with aging, sagging, and sun damaged skin, notice huge improvements in overall texture, feel, and look of their skin. Many report lightening of dark spots caused from the sun and hormones, resulting in a noticeably younger, more flawless look.

The Best Just Got Better

Meet Mama Bear Gold. Our updated formula is packed with nutrients for mama and baby.

Ten years ago when I was pregnant with Addie, I really struggled to find a prenatal that worked for me. Every one I tried made me nauseous and feel like I needed to throw up. I took a gummy prenatal for a while, which I could keep down, but looking at the semi-clear gummies in my hand, I knew there was no way they had all the nutrients I—and my growing baby—needed.

Jonathan and I found ourselves in a health food store, looking for yet another prenatal to try. We were reading supplement facts, trying to find one that supplied everything we believed a prenatal should contain. Eventually, we found one made from whole foods with a really great list of ingredients.

"I think I'm going to try this one," I said, then glanced at the price. Neither of us could believe it—\$65. And that was years ago.

We bought it, and it worked well for me—but an idea was born: let's make the prenatal we wish we had. We got to work right away, and Mama Bear Prenatal was birthed.

Unlike cheap drugstore prenatals, Mama Bear is whole food-based, with ingredients in forms that are highly absorbable and easy for the body to use. It has four capsules per day and no fillers—so it's packed with far more nutrients than other prenatals, and certainly more than a gummy vitamin ever could.

What happened next was far beyond what we expected. It turned out I wasn't the only mom looking for a high-quality, affordable whole food prenatal that actually made her feel great. Our first batch of 2,000 was gone almost immediately.

Then letters started pouring in. Moms were telling us about the difference

they felt after switching to Mama Bear Prenatal. Almost every mom mentioned how much more energy she had. Others talked about this being the only prenatal they could keep down. Moms didn't just like it—they loved it.

Over the years, tens of thousands of moms have loved Mama Bear Prenatal—many through multiple pregnancies.

The difference is in the details

The form an ingredient is in makes all the difference in how well your body is able to use it. Ingredients that are hard to digest can cause nausea. Take folic acid—it can actually cause an allergic reaction and not be digested by certain people, making the folate form far superior.

We've always paid close attention to the forms we included to make sure

they were the absolute best. But this year, we decided it was time to go deeper. We asked ourselves: If we were to make Mama Bear Prenatal for the first time today, what would we include based on new research?

In the end, we didn't change much—but the changes we did make, I'm really excited about.

What's New with Mama Bear Gold

Choline – We're adding 125 mg of choline per day. Like folate, choline supports brain development, reduces the risk of neural tube defects, improves placental function, and lowers the chances of complications such as preeclampsia and gestational diabetes.

Vitamin C from Acerola Cherry Juice – This is one we've gotten requests for over the years. We switched from citric acid to a plant-based form from acerola cherry juice that many moms will be excited about.

Better Forms of Ingredients – We updated our B vitamins, vitamin D3, zinc, and selenium to versions that are easier to digest and more bioavailable.

While the changes may seem small, our goal has always been to give you and your baby the absolute best. We can't wait to hear how much you love the new **Mama Bear Gold**.

How We Keep Our Children Cold- and Flu-Free All Year:

By Jonathan Laudon, Co-founder Sprigs Life

Jonathan is the co-owner of Sprigs and the father of five! He grew up in a holistic culture and has always had a deep passion for natural medicines and practices.

As much as I wish this weren't the case, colds and flus are something every parent has to deal with. High fevers, dehydration, ear infections, and the like—it can be very hard not only on your child, but on you as a parent. Some parents end up taking multiple trips to the emergency room every year with recurring sicknesses like ear infections that just keep coming back. Many parents feel like this is unavoidable and just part of life. In my experience, nothing could be further from the truth.

God has given us incredible herbs and foods that support the immune system, fight infection, and keep viruses in check. Unfortunately, many of the antibiotics and medications that we use very freely tend to make the problem worse and make it more likely that children get sick over and over again. One example I like to use is ear infections. So many children suffer recurring ear infections. Many times, they're given antibiotics by their doctor, even though most ear infections are viral and antibiotics do nothing to help. The antibiotics make the situation worse because they harm the child's gut health, leaving them vulnerable to the next bug that comes around. Meanwhile, a simple garlic and mullein ear oil like **Kid's Ear Cheer** is incredibly effective and quick at dealing with ear infections. Combined with immune-boosting herbs, your little one comes out of it healthier and less likely to get sick again.

While our children do get sick, it is rare and always very short-lived. There's only been a handful of times over the last decade-plus that our children have thrown up or had a very high fever. And while congestion might last a little longer, we've never had one of our children in bed sick with the flu for even an entire day.

With a simple understanding of how to notice the signs and support the body's incredible healing mechanisms with herbs, there should be no need for doctor visits and certainly not emergency room visits.

The Laudon Family Immuno-X Protocol

Here is a very condensed description of what we do to deal with colds and flus in our home.

Catch and treat it early. Trust and train your motherly intuition to notice when your little one is coming down with something. This is usually a runny nose, a change in appetite or attitude, or they're more tired than usual. It could also be because of a busy week where they were up late and ate more sugar or processed foods than normal.

Treat the whole house. When one of our children comes down with something, we don't just treat them; we treat the whole house because what affects one will affect others. For the one who's showing the signs, we give **Kids Immuno-X (Immuno-X or Pro Fighter for adults)** every hour throughout the day. Everyone else in the house uses Immuno-X three times a day according to the bottle instructions.

Careful with the diet. We try to have a good diet all the time, and avoid sugar and processed foods. However, when we notice the first sign of sickness, we get pretty strict with our diet. Our goal is to remove any foods that are inflammatory or cause mucus. That would include sugar, bread, pasta, cakes, desserts, pancakes, etc. Instead, we'll eat fruit, vegetables, eggs, and meat. Usually, we'll make a chicken soup with rice noodles, adding in a lot of garlic, onions, turmeric, ginger, lemon, and

bone broth. It's flavorful and delicious, but also incredibly healing. If the children are hungry, we focus on fruits, smoothies, apples with peanut butter, etc. If you're eating a bad diet but taking herbs at the same time, you'll have far less benefit because of all the mucus and inflammation in the body.

If they're not hungry, don't make them eat. Our bodies were designed to lose appetite when we're sick. Fasting improves our immune system's ability to fight. When they regain their appetite, start them back with fruits like apples, applesauce, or the chicken soup mentioned above.

Opening up the elimination channels. Your body will try to flush out the virus through your stool, urine, and sweat. Children with a runny nose are very often constipated, so we give **Kids Reg Ease (Reset-and-Go for adults)** a couple of times to help move the mucus out of the body.

Drink lots of water. We want them urinating a lot and sweating if possible. Both of which don't happen without a lot of liquids. We keep a flavorful, sugar-free electrolyte powder on hand to add to their water to help them drink more and replenish electrolytes.

Sweat, sweat. We never cool a fever because the body raises the temperature to kill viruses and to cause sweating, which helps the body detox. In fact, we encourage hot tea, hot showers, and bundled-up walks outside to increase sweating. We always want to drive the fever up, not cool it, in order to support the body's God-given healing mechanisms. (Immuno-X contains yarrow, which helps encourage sweating.)

Rest if needed. If they're tired or obviously need rest, by all means have them sleep. But don't be overly adamant about them being in bed. Going outside is incredible for them. Moving their body helps their lymphatic system circulate and detox. Even lightly jumping on the trampoline can help them recover.

Keep their spirits up. Laughter really is medicine. So if your little ones aren't feeling good, try to make them smile or laugh a little bit. Do something to lighten their spirits; it will help them heal.

In our experience, this approach has eliminated almost all winter-time sickness quickly, but sometimes it will turn into a sore throat, an ear infection, or have a respiratory element to it. In those cases, we start adding herbal formulas for this specific area of concern. For ear infections, we use **Ear Cheer**. For sore throats, we use **Herbal Guard Throat Spray** and **Echinacea+ Throat Syrup**. For respiratory issues, we use **Breathe Easy** or **Respiratory Aid**, depending on whether it's an upper or lower respiratory issue. For very bad bugs, we will use **Pro Fighter** very heavily and combine that with **Immuno-X or Echinacea and Goldenseal Extract**.

I hope this condensed protocol simplifies how to think about dealing with colds and flus and helps your family stay well this winter.

Little Monkey Teething Formula
BEST SELLER
 BETTER WORLD BOTANICALS ★★★★★
 Teething for Babies (works in minutes). When a baby is teething, the fever and ache occur because the body is pulling calcium and minerals from the bones to make teeth with. If quality calcium and minerals are introduced through the digestive system, the body immediately stops pulling from the bones. We tell parents to give the child as much as they want. The baby's body knows when it has enough. The baby will LOVE it for several droppers and then suddenly not want any more. If the child gets as much as they need, the misery can be prevented completely.

Certified USDA organic - Just what your baby needs and nothing they don't. Hormones, synthetic pesticides, or antibiotics? You won't find them here. Breastmilk inspired fat blend - Whole milk fat helps to keep things moving! Designed to support softer stools for a happier baby. More milk fat, less added oils - Babies need fat for calories and brain growth! The Lord's Prayer

Our Father which art in heaven,
Hallowed be thy name. Thy kingdom
come. Thy will be done in earth, as it is
in heaven. Give us this day our daily
bread. And forgive us our debts, as we
forgive our debtors. And lead us not
into temptation, but deliver us from
evil: For thine is the kingdom, and the
power, and the glory, for ever.
Amen.

Love

LOVE IS PATIENT. LOVE IS KIND. IT DOES NOT ENVY. IT DOES NOT BOAST. IT IS NOT PROUD. IT DOES NOT DISHONOR OTHERS. IT IS NOT SELF-SEEKING. IT IS NOT EASILY ANGERED. IT KEEPS NO RECORD OF WRONGS. LOVE DOES NOT DELIGHT IN EVIL BUT REJOICES WITH THE TRUTH. IT ALWAYS PROTECTS. ALWAYS TRUSTS. ALWAYS HOPES. ALWAYS PERSERVERES. LOVE NEVER FAILS.

1 Corinthians 13:4-8

While on this ride called "Life", you have to take the good with the bad, smile when you're sad, love what you've got and remember what you had. Always forgive, but never forget. Learn from your mistakes, but never regret. People change, things go wrong.

Just remember... the ride goes on.

Made-to-Order Collection

Make these designs your own! Add your favorite verse, mark a special occasion, or personalize for a unique gift. Clocks can be ordered with the customization option, or as shown. These clocks are specially made for you, and have a 4-6 week lead time.

How it works

1. Choose your clock

Made-to-order clocks are available in two sizes:
Traditional Series - 24" x 16"
Classic Series - 12" x 30"

2. Make it your own

Order the clock with our thoughtfully created design or add your own personal touch! Level 1 Customization \$25
Add names and dates to celebrate a wedding, commemorate a loved one, or create a unique gift. Up to 3 lines of text. (Names, dates, in loving memory, etc.)

Level 2 Customization \$65

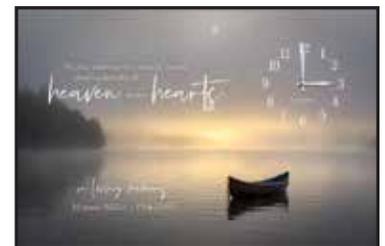

Do a little more to make it your own. Change the verse to one that is meaningful to you or create a family record. A name drop can also be included with this level of customization.

3. Proof & Approval

Our design team will send you a proof for your approval. Give us the okay to move ahead or tweak it as needed.

Catalog Ordering Info

METHOD OF PAYMENT

We accept check, money orders or credit cards at this time. When sending your order through the mail, we advise you to let us fill in the amount on the check as there is a good chance it won't be right in the case of out-of-stock or backorder items. As long as the check is made out in our name there should not be a safety issue. If you do fill in the amount then we will issue you store credit for over-paid checks or bill you if there is a difference. If using credit cards please note that all prices in catalog reflect cash pricing, and you will notice a small increase on your total. Depending on how much this is used we may be able to eliminate the increase in the future.

USING COUPONS

Coupons can be used over the phone or through the mail. When figuring off coupons on order forms always deduct before adding tax or shipping cost. If you receive a coupon with your unpaid phone order, you can use the coupon with your next order. Do not figure off your present shipment, when sending in your payment. We accept Sprigs coupons but you must state so at time of order.

EXTRA SHIPPING CHARGES

apply only if your order is more than \$99. The reason for these charges are due to the heavy weight of certain products. Please check to make sure you add all extra charges to your order, even if your order qualifies for free shipping. ● \$1.00 ● \$2.00 ● \$3.00 ● \$4.00 ● \$5.00

RETURNS

Always call in before returning a product even if it is damaged. Never return a product before notifying us. We do not accept returns on any food items, supplements, or opened books and oils. On any other returns there will be a 10% restocking fee.

WARRANTIES

If the product we sell has a warranty then please call in before returning. Some products get sent directly to the manufacturer. KC Products will be serviced at our NEW SERVICE CENTER. If the warranty has been run out we will still service the product for a small fee.

TAXABLE ITEMS

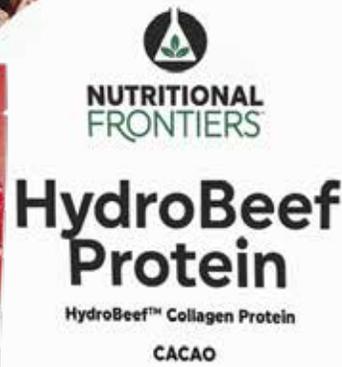

“For Ohio Residents Only” Items are not taxable unless there is a star beside the item in the catalog. Be sure to add 6.75% sales tax to all items with a star when ordering through the mail.

“For PA Residents Only” Items are not taxable unless there is PA beside the item in the Catalog. When ordering by mail, make sure to include a 6% sales tax in all items with PA.
