Proverbs 31 Woman

By Ruth Ellen Allgyer

King Lemuel artistically wrote Proverbs 31. King Lemuel's mother wanted him to choose a wife wisely; therefore, she offered him a list of characteristics to look for in a Godly wife. Many women feel discouraged by the impossible standard set for women in this passage. However, in 2 Timothy 3 we read, *"All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction of righteousness. That the man of God may be complete, thoroughly equipped for every good work."*

Proverbs 31 outlines a wife of noble character, a woman of valor, an excellent wife, and a capable wife. Proverbs 31 is not only for wives but for women in all walks of life.

Verse 11: *"Who can find a virtuous woman? For her worth is far above rubies."* → She knows true beauty comes from deep within her soul. Surely, she is a woman after God's own heart.

Verse 12: *"The heart of her husband safely trusts her; so, he will have no lack of gain."* → She shows unwavering support and love. She is loyal and dedicated to her union with her husband.

Verse 13 & 14: *"She seeks wool and flax and willingly works with her hands. She is like the merchant ships; she brings food from afar."* → She willingly rolls up her sleeves and does not eat the bread of idleness. She sufficiently plans and organizes to bring order into her home.

Verse 15: *"She also rises while it is yet night, and provides food for her household, and a portion for her household."* → She chooses self-denial, diligent planning and allows time to mediate upon God's law and pray fully prepares to encounter the day.

Verse 16: *"She considers a field and buys it; From her profits she plants a vineyard."* → She indicates wisdom and resourcefulness. She invests in her endeavors to benefit her household.

Verse 17: *"She girds herself with strength and strengthens her arms."* → She is a woman of strength, courage, bravery and hard work.

Verse 18: *"She perceives that her merchandise is good, and her lamp does not go out by night."* → She does not strive for perfection, rather she strives for excellence.

Verse 19: *"She stretches out her hands to the distaff, and her hands to the spindle."* → She embodies strength, diligence, kindness, and capacity. Her hands mirror a heart committed to serve God, family, and community.

Verse 20: *"She extends her hand to the poor, yes she reaches out her hands to the needy."* → She reflects Christ. She is a disciple of Christ. She loves like Jesus loves.

Verse 21: *"She is not afraid of snow for her household, for all her household is clothed with scarlet."* → She cares and foresights to ensure her family's comfort and well-being.

Verse 22: *"She makes tapestry for herself; her clothing is fine linen and purple."* → She values modesty and quality of her clothing.

Verse 23: *"Her husband is known in the gates, when he sits among the*

elders of the land." → She respects and supports her husband as he walks in God's will for his life.

Verse 24: *"She makes linen garments and sells them, and supplies sashes for merchants."* → She actively participates in providing for her household and community.

Verse 25: *"Strength and honor are her clothing; she shall rejoice in time to come."* → She presents a woman whose life is wrapped in God-given strength and honor, virtues that shape every interaction. She greets the unknown with joyful confidence.

Verse 26: *"She opens her mouth with wisdom, and on her tongue is the law of kindness."* → She controls when she speaks, draws her content from God's wisdom, and keeps timeless truth ever ready on her tongue, blessing everyone within earshot.

Verse 27: *"She watches over the ways of her household and does not eat the bread of idleness."* → She sets goals. She plans and schedules wisely. She is the safeguard of her home. She refuses procrastination and works enthusiastically.

Verse 28: *"Her children rise up and call her blessed; her husband also, and he praises her."* → She shapes a legacy of honor that glorifies God and blesses every generation after her.

Verse 29: *"Many daughters have done well, but you excel all."* → She highlights her exceptional qualities and virtues.

Verse 30: *"Charm is deceitful, and beauty is passing, but a woman who fears the Lord, she shall be praised."* → She does not obsess over her outward appearances. She knows inner beauty signifies deep respect, reverence, and love for God.

Verse 31: *"Give her of the fruit of her hands and let her own work praise her in the gates."* → She recognizes a life worthy of honor and respect. She values wisdom and diligence.

Being a virtuous woman takes a willingness to learn, grow and to become something greater than what the world says you need to be as a woman. It means to portray moral excellence, righteousness, and goodness. It means getting back up, taking up the cross even through mistakes, failures, and shame. It means to receive God's mercy, encouragement, and forgiveness. It means to live with a deeper purpose. It means to pulse the heart of passion and creativity. It means to love and be loved.

By the Grace of God, Ruth Ellen was hired to work for NewLight Health in 2020. She feels richly blessed to collaborate with such wonderful people and values the inspiration she receives from her employer and co-workers to step outside of her comfort zone.

In 2016 she married her best friend, Steven Allgyer. Their abode is in the hills of Perry County, Pennsylvania. Food and family are their favorites, and they absolutely adore their nieces and nephews.

Ruth Ellen's personality is 100 percent visionary; therefore, in her mind she is constantly dreaming and spending money. She enjoys connecting with others but do perhaps avoid her if caffeine is in her bloodstream!

Greetings Friends

HELLO NEWLIGHT COMMUNITY & FRIENDS!

As the team of NewLight Health reflects on the year gone by, we are thinking of change, growth, and friendships.

Change because our company is led by 'visionary' team leaders, symbolizing change.

Growth because we are grateful for faithful and new customers who help our business to grow.

Friendships because within and outside of the workplace we have opportunities to connect with wonderful people. People who are like minded, gracious and loving. People who want to go back to the roots of God's design for humanity.

If you can attend an event based on Homesteading & Natural Healing, we would highly recommend it to you. These events are both encouraging and inspiring. Plus, it is so important to remember that connection with like-minded people is one of the greatest health benefits of all times.

"Behold, how good and how pleasant it is for brethren to dwell together in unity." Psalm 133:1

We pray for love, laughter and connection in your lives.

We hope you and your family stay healthy this winter season.

KT1010 **\$107.90**

B-Well Tea **TOP SELLER**

This tea can be used every hour when sick or use as a preventative. Directions: Bring 1 quart water to boiling. Add 1 rounded tablespoon herbs to the hot water or pour hot water over herbs in a glass jar. Let sit, covered for 20-30 minutes. Strain through a sieve into a glass jar or pitcher. Sweeten with honey or other natural sweetener if desired. Botanical Ingredients: Raspberry leaf, Peppermint leaf, Alfalfa leaf, Stinging Nettle leaf, Yarrow herb & flower.

NA3003 (4 oz.) **\$13.70**

Moringa Hot Chocolate **TOP SELLER**

CocoRinga is a non-dairy, multi-nutrient, multi-vitamin hot chocolate made with natural unprocessed cacao. Containing two superfoods (cacao and moringa), a natural pre- and pro-biotic sweetener (oligosaccharide from chicory root) and high-fiber plant creamer (from coconut and tapioca) adults and kids will love this! You can drink this with hot water or cold water—and you can even add it to smoothies, shakes or baked goods.

BC7100 (14 Sachets) **\$22.40**

Healthy Morning Coffee **TOP SELLER**

Are you looking for a very smooth tasting organic coffee that is easy on your stomach, less acidic, and less bitter. If so you have found the perfect coffee! This coffee is infrared roasted. This simply means that during the roasting cycle, the coffee beans are not exposed to an open flame like most of the other coffee roasters do in the country. Infrared roasted coffee is never burnt, noticeably smoother, and less acidic; making it more friendly for all ages, digestive and dietary concerns, and fitness levels. When you burn the coffee beans, you rupture the cells of the bean, which disperses the coffee volatiles/oils. As a result you reduce the coffee yield per pound. With infrared roasting, the cells are not ruptured and the bean retains more volatiles/oils generating a higher cup yield and in turn more cups per pound of coffee. Through State-of-the-Art roasting technology, we can evenly roast all our coffees to the exact roast level you are seeking each and every time. Every bean is gently and evenly roasted, which allows the acids in the bean to be converted into sugars [This Coffee is still Sugar Free...and has NO ADDED SUGAR], providing you with a very full, rich and smooth finish. This black coffee is noticeably smoother and tastes more pleasant/sweeter than traditional roasting. This coffee is also great to use when baking etc. So go ahead and help yourself to one awesome cup of coffee! A 2 oz. pack makes approximately 12 cups of coffee and a 12 oz. bag approximately 72 cups.

AllerFree **TOP SELLER**

Serving Size: 2 per day

Millions of Americans suffer from discomforts triggered by allergic reactions. AllerFree™ provides a specially designed blend of plant-based enzymes to help reduce the frequency and intensity of such reactions.*

Allergic responses occur when the immune system sends histamines and other factors to break down foreign proteins in the blood. These factors trigger itching, sneezing, watery eyes, runny noses, inflammation, and other discomforts. When taken between meals, the protease enzymes in AllerFree™ help digest proteins (from yeasts, molds, pollen, animal dander, etc.) before the immune system reacts to them, thus preventing the release of histamines. AllerFree™ also utilizes amylase enzymes that help neutralize any histamine that has already been released, thereby minimizing the effects of reactions in progress. Studies have shown that allergy sufferers have lower amylase enzyme levels than normal.*

For those who suffer from allergies caused by airborne allergens, AllerFree™ is a safe, natural, and highly effective solution.* May be used during pregnancy & while nursing.

Pluck Seasoning **NEW**

Pluck seasonings are all about getting quality organ meats from animals that are grass-fed with no GMOs or hormones, as close to nature as possible. Organ meats are nature's multivitamin, packed with bioavailable nutrients your body can easily recognize and absorb. But here's the thing—most people don't want to eat liver or kidneys. That's where Pluck comes in. It's the perfect gateway to organ meats because it doesn't taste like organ meat. What you taste is the savory deliciousness of umami, the fifth taste. Just sprinkle it on like salt and pepper, and you've turned any meal into a nutrient-rich superfood.

**Adrenal Rebuilder**

Adrenal Rebuilder® is formulated to provide naturally bioavailable building blocks the body can readily use to support healthy adrenal structure and promote optimal function of the adrenals and other endocrine glands affected by stress.* It contains a carefully balanced blend of porcine glandular tissue concentrates in the same form in which they occur in nature – but with the hormones removed. These concentrates contain specific protein structures and synergistic nutrients that are tailor-made for and uniquely beneficial to the corresponding glands in the body.* They efficiently supply essential elements for replenishing glandular structure and function without the undesirable effects that can be caused by hormones.* Adrenal Rebuilder is a rare source of purified porcine glandulars designed to preferentially nourish and build the glands of stress with optimal effectiveness. Suggested Use:

Take 1 caplet 3-6 times a day (1 upon rising, 1 at noon and 1 before bed; 1 additional caplet may be taken up to 3 times throughout the day, if desired).

AllerFree **TOP SELLER**

Millions of Americans suffer from discomforts triggered by allergic reactions. AllerFree™ provides a specially designed blend of plant-based enzymes to help reduce the frequency and intensity of such reactions.*

Allergic responses occur when the immune system sends histamines and other factors to break down foreign proteins in the blood. These factors trigger itching, sneezing, watery eyes, runny noses, inflammation, and other discomforts. When taken between meals, the protease enzymes in AllerFree™ help digest proteins (from yeasts, molds, pollen, animal dander, etc.) before the immune system reacts to them, thus preventing the release of histamines. AllerFree™ also utilizes amylase enzymes that help neutralize any histamine that has already been released, thereby minimizing the effects of reactions in progress. Studies have shown that allergy sufferers have lower amylase enzyme levels than normal.*

For those who suffer from allergies caused by airborne allergens, AllerFree™ is a safe, natural, and highly effective solution.* May be used during pregnancy & while nursing.

GABA "Now" **TOP SELLER**

GABA (gamma aminobutyric acid) is a non-essential amino acid found mainly in the human brain and eyes. It is considered an inhibitory neurotransmitter, which means it regulates brain and nerve activity by inhibiting the numbers of neurons firing in the brain. GABA is referred to as the "brain's natural calming agent". By inhibiting over-stimulation of the brain, GABA may help promote relaxation and ease nervous tension. NOW provides only the naturally occurring form as found in food and in the body.

Neuro-Calm TOP SELLER

Neuro-Calm combines five ingredients that work together to improve our body's response to stress. Holy Basil, Ashwaganda, and Rhodiola are adaptogenic herbs that reduce the stress hormone, known as cortisol which has health damaging affects including insomnia, weight gain, hot flashes, anxiety, and more. This cortisol reducing effect can make a dramatic difference in how we feel each day with greater freedom from stress and more of a sense of energy and well being. GABA is an amino acid responsible for calming the brain and mitigating the over activity of other brain cells. GABA has helped those with addictions to alcohol and nicotine, especially with the withdrawal symptoms that accompany the removal of addictive substances. GABA also can help improve serotonin which improves mood and sleep quality. L-Theanine is an another amino acid in the formula that generates alpha waves in the brain, which are brain waves that relax the brain assisting those with anxiety or those individuals having trouble with concentration.

Calm Essence

CalmEssence™ provides 150 mg per day of pure L-Theanine (Suntheanine®), an amino acid from green tea that studies have shown promotes a sense of calm, even under extreme pressure. It also provides Honokiol, a phytochemical from Magnolia bark that helps us remain calm. These factors may help reduce the frequency of the stress response being triggered in your body. They may also reduce the intensity of stress responses when they do occur. Any reduction in the amount and/or intensity of stress response is a step toward better health.

This formula is designed to support the neurotransmitters dopamine and serotonin, with the potential to improve problems with sleep and anxiety. Serotonin plays a role in sleep, mood, intestinal function, pain control, and inflammation. Dopamine plays a role in cognitive function, memory, learning, and pleasure. In our bodies, dopamine is released as a result of rewarding experiences. Certain nutrients and amino acids may help to balance levels of neurotransmitters by providing co-factors that assist in the body's ability to manufacture neurotransmitters.

Living in Peace vs. Anxiety

God's Path to Real Wellness

By Kim Furhmann, ND, CNHP

Stress is the number one underlying cause of dis-ease in the body. And yet, God has designed a pathway in our circumstances to instead build dependence on Him and resilience in us.

Every time I research the percentage of illnesses that are rooted in stress, the number goes up. About seven years ago when I first began researching this, the estimated percentage of disease caused by stress was 60–70%. That number has since gone up to 90–95%!

Even medical doctors are becoming aware of this. Why is that? What are some physical signs that stress is wearing you down?

Stress releases a rush of cortisol and other hormones, causing a cascade of symptoms that shut down the body's normal processes. People often come to me with various symptoms. Every single time I meet with a person, we discuss their stress level, what their main source of stress is, and how they cope (how they decompress). We are amazing beings — body, mind, and spirit — created in God's image. Really, the spirit and mind have much more to do with your body than you would think. Based on the "theology" of evolution, our modern,

godless world makes solutions and trains professionals (including doctors) in systems that compartmentalize God's incredible creation. Man seeks to patch up problems in his own wisdom. But being wise in our own eyes is the heart of foolishness.

Any dysfunction, whether it be in a relationship, church, business, or human body, is an opportunity for us to fall on our faces before the Lord. But it is so easy for us to fall into patterns of "managing" our lives, rushing into a survival scramble in an attempt to handle problems ourselves and in our own wisdom. Often, when we make bad, sinful choices in our scramble (like bitterness, outbursts of anger, shutting down/withdrawal, pride, rehearsing and repeating offenses, etc.), it's easy to blame the offender or the "cause" of our stress.

It's funny, but when we live our own way in anxiety, fear, anger, or stress — and continue in it — our body rats us out. The digestive system shuts down, and saliva production, which impacts digestion from the very first bite of food, switches off. This can lead to a dry mouth and trouble swallowing. Stress can also lead to your hair follicles switching to rest phase, which means

that you're using so much energy to stay in stress that there's not even enough energy to hold hair in its follicle, leading to hair loss (losing hair in handfuls).

Since stress disrupts our digestion from the first bite of food, it's also interesting to note that the villi in the intestine change shape and action. This switches off your ability to create appropriate digestive enzymes, and over time, this leads to all sorts of gastrointestinal symptoms like abdominal pain, heartburn, nausea, diarrhea, and constipation.

I have a dear friend who recently and suddenly developed such incredible joint and bone pain that she can barely function. Also recently, she has had to take on the care of her parents. Never having enjoyed a good or healthy relationship with her mom; traveling every week and often living away from her family so that she can help; and dealing with all the physical, emotional, and even lifelong stresses of this situation is, I believe, the root cause of her issue. Specialists and blood analyzers are baffled. But stress can cause your muscles to tense up and also inhibits your ability to assimilate proper nutrition, and over time, that can lead to pain and soreness almost anywhere in the body... even in joints. Often, you'll feel stress-related aches and pains in your neck, back, and shoulders and even in your hips, feet, ankles, and knees.

Stress can raise your heart rate and cause rapid, shallow breathing. This can make you feel dizzy or lightheaded. It can also cause headaches or heart issues. Stress can even cause hormonal changes, leading to irregular menstrual cycles, missed periods, or decreased desire or ability for normal function in your marriage relationship. Every single time I work with a woman struggling with fertility, we discuss stress. Often, the stress of not getting pregnant keeps her too stressed to get pregnant!

For every one of these symptoms — and these are just a very few! — the stress brought on by the symptoms makes us more stressed. It sounds like an airplane in a flat spin hopelessly spiraling. Despair.

But there's an answer: God. He designed us with this ability to go into stress and out of it, but we really can't do this well without Him. I think it's funny that godless eastern or new age "religions" have tapped into these truths. And because they're truths, physiologically they might seem to work. But the Bible is also clear that Satan isn't going to provoke and torment people who despise God and His word with the same energy and consistency that he purposes to use against followers of Jesus.

Of course, there are physical solutions! Dry brush. Take a hot, hot shower, follow it with cold water (as cold as you can stand it), and finish with hot water; then, apply a castor oil pack or put some of that in your belly button. Make it a weekly ritual. It's a true reset to your body!

Eat in a way that balances your blood sugar. Eat regular meals without empty, fluffy, sugary, or floury carbs. Consider taking a digestive enzyme with every meal and a good probiotic before bed. Even increase B vitamins. Take a quality multi-vitamin and perhaps something to reset your nerves. Drink 1–4 cups of herb tea daily. Pray about what God wants you to do to support yourself and help your physical body with these symptoms. That's definitely something I address in appointments with clients.

But we will chase symptoms indefinitely if we fail to address the most important thing. Often when I talk to people, I ask them, "What's up with you and Jesus? How is your relationship with Him? How does He help you with stress?"

Very often, those answers are weak. And that's okay.

Paul said, "I have learned, in whatsoever state I am, therewith to be content" (Philippians 4:11). And in another place, there's a list of how he learned it,

"Thrice was I beaten with rods, once was I stoned, thrice I suffered shipwreck, a night and a day I have been in the deep; in journeyings often, in perils of waters, in perils of robbers, in perils by mine own countrymen, in perils by the heathen, in perils in the city, in perils in the wilderness, in perils in the sea, in perils among false brethren; in weariness and painfulness, in watchings often, in hunger and thirst, in fastings often, in cold and nakedness."

— CORINTHIANS 11:25–27

How do you like that list for causing stress? What's different about Paul? He learned. He learned to come to Christ. This is what resilience is! What if we looked at trials (huge ones like cancer, full-body oozing eczema, tragedy or horrible wrongs...) and even the "little" petty provocations (like defiant toddlers, grumpy husbands, controlling mothers-in-law, burnt dinner, church discord...) as friends — our good friends that bring us back to Jesus?

Philippians 4 contains a foolproof recipe for this,

"Rejoice in the Lord always: and again I say, Rejoice. Let your moderation be known unto all men. The Lord is at hand. Be careful for nothing; but in every thing by prayer and supplication with thanksgiving let your requests be made known unto God. And the peace of God, which passeth all understanding, shall keep your hearts and minds through Christ Jesus."

— PHILIPPIANS 4:4–7

I am learning that the peace of God which passeth all understanding is a guide mark of where my heart is. The trials and provocations of life can knock Jesus off the throne of my mind in an instant, and then there's a choice. Jesus clearly lays out choices in the Sermon on the Mount (Matthew 5–7). And it's good to remember that Paul wrote this admonition from a nasty prison cell. The life that Jesus lays out in the Sermon on the Mount and many of Paul's admonitions seem impossible, but they are descriptions of life in Christ, and they're only possible by the power of Christ working in us. That is a lifelong practice: getting knocked down, looking to and coming to God, and experiencing His help and power in our minds, hearts, and even bodies. Practicing the presence of Jesus is a lifelong pursuit!

What if we had zero tolerance for sin? What if we didn't excuse it or blame someone, something, or some situation for our sinful responses? What if we asked God to work that miracle in our hearts?

Living in Peace vs. Anxiety (Continued)

“Finally, brethren, whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things.”

— PHILIPPIANS 4:8

We have a responsibility to see sin the way God does. We all need to grow, and He needs to teach us how to see things and life through His perspective. Perfect isn't the goal; it is freeing to know that we will make mistakes probably every single day, but if we are in Christ, He sees us through His perfectness, through the veil of His blood shed for us which pays for our sin.

Over the past few years, a sweet shift has happened in our family's lives with the Lord. We are learning how much we need Jesus, all the time and in everything. We need His guidance, His truth, and His rewriting and rewiring of our brains. That's one reason that trials and provocations are friends. They poke, prick, hurt, and offend us. They overwhelm and discourage us.

Sometimes they are scary, even devastating.

And they bring us back to Christ. There's a sweet old hymn, “Come Thou Fount”, with this beautiful verse:

*“O to grace how great a debtor
daily I'm constrained to be!
Let that grace now, like a fetter,
bind my wandering heart to thee.
Prone to wander, Lord, I feel it,
prone to leave the God I love;
here's my heart; O take and seal it;
seal it for thy courts above.”*

God's people, even the great men of Bible times like Isaiah, King Hezekiah, King David, and John the Baptist, knew their propensity to wander. They're great examples of how to reset and reestablish our hearts and minds, fixing them on the Lord.

So what if we look at stress as a normal part of life in this fallen world? Things happen to our stuff, our bodies, our people, our churches, our nation, and on and on because we are just a bunch of people wandering in this fallen world and in great need of God. When we come to Him (remember the recipe from Philippians), we receive the promise that Jesus made, “Come unto me, all ye that labour and are heavy laden, and I will give you rest.” (Matthew 11:28)

The thing to believe is that we can come. We should come. He wants us to come. He's always invited us to come. Remember in the garden of Eden when Adam and Eve first sinned? They hid, and God came in the cool of the day, saying, “Adam, where are you?” Our all-knowing God knew exactly where Adam was and what he'd done. God was inviting Adam and Eve to come, but they didn't.

They made excuses. They blamed — even God Himself! And the consequences of sin fell upon them and upon all who have come after them. But God has always been inviting people to Himself.

Our trials give us special practice. Also practicing gratitude helps hugely! Everything we call our own is simply what we have been given. And how awesome to know that God wants us to come to Him all the time, no matter what! Take time to practice doing that every day. Take time to praise and thank Him, from little things like your bed and blankets to the huge things like your Bible and family! Take time to process your stress and emotions and ask God how to think about it. Ask Him to help you understand what He wants you to learn through it. And ask Him to bind your wandering heart to Him.

It is there that you are always safe and loved. It is there that you were designed to be! Oh, God, give us faith to believe this, and teach us to look at life as practice, as a way to learn to be content in whatsoever state we are in.

When you slip into shock, despair, provocation, hurt, or anger, cry out for Jesus. Come to Him and let Him reset your heart and mind. This is the practice of resilience. And through it, God makes His children mighty! And yet, remember that He doesn't love you more when you succeed than when you fail. He loves us. He longs for us. And He loves for us to ask Him for help and a right heart. In Him, we can have peace.

Praying for you, precious people, to understand that! It is a work of God to grow in this understanding. It is something we must purpose to practice in Christ.

God bless and keep you. Jesus loves you, and I do too.

Iron + Herbs **TOP SELLER**

Perhaps you are one of many suffering from iron deficiency, the single most prevalent nutrient deficiency worldwide. Iron deficiency is the leading cause of fatigue among women between the time of menstruation and menopause. Adolescents and women of childbearing age need to regularly replace the iron that is eliminated through monthly blood loss. Demand during pregnancy also increases as iron is needed for proper placenta development and prevention of pre-term and low birth weight babies. In children and teenagers, a lack of iron is common due to poor eating habits, stress and growth spurts, and could influence behavior, learning ability and overall health. When iron is low, ATP production drops and energy levels decrease as a result. Choose from regular or Yeast Free formula.

Endovan **TOP SELLER**

Endovan works with your body to target the root of the problem and has historically been used for high blood pressure, preeclampsia, endometriosis, fibroids, ovarian cysts, and breast lumps. Many women's reproductive health issues are caused by the body's inability to break down excess fibrin. This unhealthy fibrin plays a major role in the development and exacerbation of fibroids, ovarian cysts, endometriosis, and breast lumps. Endovan's unique formulation is designed to naturally boost your body's ability to target and degrade excess fibrin and relieve the associated adverse symptoms. What To Expect; Results will depend on the severity of your symptoms but some women notice improvement in the first one to two months with continued progress in subsequent months. Important: While successful for the majority of users, not all women respond to Endovan. Stop use while having your period then continue afterward. Can also be used by men.

**Pancreas Formula** **TOP SELLER**

Our pancreas is an amazing gland in the abdomen that produces insulin & helps our body break down foods. When our pancreas is healthy it is self-regulating, working day & night for our entire life. A healthy pancreas is able to produce the right chemicals at the right times in the right quantities in order to properly digest the food we eat. Today's average diet lacks many essential nutrients that are needed to support normal immunity, blood sugar levels, digestion & glandular function. Not eating a sensible, healthy diet can damage our pancreas & lead to many health problems.

Dr. Christopher's Pancreas formula aids the liver with controlling blood sugar, enhances digestion & encourages glandular health.

Many aging individuals find themselves under assault from rising blood sugar levels. Despite a healthy diet and exercise, blood sugar levels can rise due to a number of factors including excess gluconeogenesis where by the liver produces glucose from protein. Another issue is the rapid conversion of any starch, including whole grains, into glucose. The result is that even health-conscious, active people can experience higher-than-desired blood sugar levels as they age.

Lion's Mane Extract

Lion's Mane, also known as *Hericium erinaceus*, is a fungus found throughout temperate regions of Asia, Europe, the Middle East, and North America. Lion's mane is a "saprophytic fungus," meaning it grows on and digests trees. Like other fungi, lion's mane recycles nutrients from both living and dead trees back into the soil, making it an important contributor to the ecosystem. This edible mushroom can be eaten as part of a meal or used for medicinal purposes. Lion's mane is reported to have many beneficial characteristics according to cell cultures and animal models such as antibiotic, anticarcinogenic, antidiabetic, kidney and nervous system protective, liver and heart protective, antihypertensive, anti-inflammatory, and more. It has been used for centuries in Traditional Chinese Medicine as a tonic to relieve stress and improve mood.

Created by Dr. Carolyn Dean (author of The Magnesium Miracle), ReMag® minerals are meticulously created from a pure source of magnesium chloride and developed to deliver stabilized magnesium ions that are similar in size to the magnesium available from plants. The magnesium in ReMag® is picometer in size, which is smaller in diameter than the body's cell mineral ion channels. Its direct and complete absorption into cells means ReMag® can bypass a leaky gut and does not reach the large intestine; Dr. Carolyn Dean's ReMag® solution, therefore, does not have a laxative effect, like you may have experienced with other magnesium supplements.

Candida in Kids

By Kim Furhmann, ND, CNHP

Mom, stop and pray, asking God to speak to your heart as you read this. May He give you wisdom, understanding, and guidance to care for yourself and the precious little ones He has entrusted to your care. Now, take a nice deep breath. After you've done that, then read, so that you're reading with His direction and in a state of peace. We need to learn to do this about everything anyway, and our kids need to see their mom leaning into and onto the Lord for instruction, help, guidance, and direction.

A healthy gut is vital to the development and wellbeing of children. A healthy gut microbiome can lead to improved assimilation of nutrients, a stronger immunity, and better moods. It's also wise as a parent to know that a gut imbalance can be the root cause of various issues, ranging from digestive issues to allergies and behavioral problems.

It's good for us to learn and then teach our children that a diet of processed and high-sugar foods can disrupt this delicate balance. This disruption can lead to an overgrowth of yeast, particularly candida. Understanding how to manage this condition through dietary changes and natural remedies is essential for parents seeking to support their children's health. But remember how important a role stress plays in gut health too. I pray that this article will be helpful, pointing you to understanding God's design and how we can partner with it!

Candida is a type of yeast that naturally exists in the human body, particularly in the gut. Under normal circumstances, it coexists with other microorganisms without causing any problems. However, factors such as a poor diet, stress, eating too quickly, not properly chewing your food, drinking icy drinks while eating, antibiotics, and illness can lead to an overgrowth of candida.

If your child has issues such as bloating or gas, itchy skin or eczema, frequent earaches, infections, colds, and even irritability or mood swings, you might want to consider looking at candida as a physical root to these problems.

Calmly adjusting the diet and lifestyle is recommended if you notice any of these symptoms.

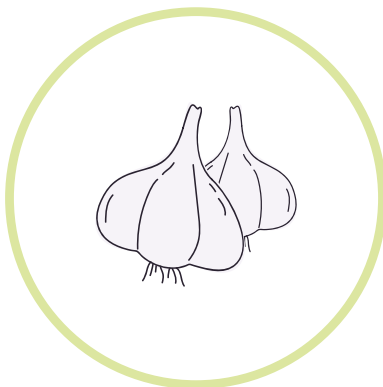

HOW TO KNOW IF YOUR CHILD MIGHT BENEFIT FROM A DIET-BASED CANDIDA CLEANSE

- **Digestive Issues:** Complaining of tummy ache or irregular bowel movements.
- **Rashes or Consistent Itchiness:** Ones that don't clear up with "normal" support measures (clay bath, salve, apple cider vinegar, etc.).
- **Frequent Infections or Easily Catches Cold / Flu:** The child's gut needs support. If they've been on antibiotics or other drugs, these affect the gut.
- **Moodiness or irritability.**
- **Low energy levels or unexplained fatigue.**

VEGETABLES

GARLIC

FERMENTED FOODS

A candida cleanse for kids focuses on eliminating excess yeast from the body while promoting a healthy gut environment. This process typically involves dietary changes that limit sugar intake — one of the primary food sources for yeast — as well as incorporating foods that nourish beneficial bacteria.

HOW TO IMPLEMENT A SAFE & EFFECTIVE CLEANSE:

The cleanse should be approached gently and gradually to avoid overwhelming your child's system. Here's how you can implement a safe and effective cleanse:

1. **Consider consulting with a natural health care practitioner** who can help you with nutrition and integrative supplemental support if needed. This isn't necessary, but it's recommended. "Doctor" means "teacher" in Greek. Prayerfully look for someone who is willing to help you lean into this circumstance so that they can teach you and you can learn! Perhaps that's why God sent the trial in the first place.
2. **Eliminate sugary foods, as sugar feeds candida yeast.** A craving for sweet foods is a sign of overgrowth. The gut is FULL of neurons and begs for sugar by sending intense craving messages to the brain.
3. **Focus on whole foods** like:
 - Fresh fruit (in moderation)
 - Veggies
 - Whole properly prepared grains (if possible, consider cooking rice or quinoa in bone broth, soak and pressure cook legumes, and enjoy sourdough bread when you can)
 - Protein and healthy fat from nourishing sources
4. **Stay hydrated.** Water will help flush out toxins while supporting every function of the body.
5. **Introduce anti-fungal foods:**
 - Garlic (you can ferment it whole or just add it to meals and fermented foods); it is safe to take this in large doses.
 - Coconut oil and monolaurin both help the body fight yeast.
 - Fermented foods like yogurt, kefir, raw sauerkraut, or fermented veggies are great to enrich and encourage healthy gut microbiome.
6. **Monitor the symptoms.** Try being consistent with the diet for a couple weeks, observing changes in your child's symptoms
7. **Supplement wisely.** CandiKill from Nutritional Frontiers is a product that people have used at half doses with kids. I gave this to my kids in the morning, and then before bed, I gave them a dose of probiotics. SBC or Superdophilus work well as a "clean-up crew" probiotic. The right kind of probiotic can really help, especially if your child's been on antibiotics or under stress. Also, don't forget castor oil packs, calming baths with sea salt added, and teaching children to slow down and gratefully and calmly chew their food when they're eating.

CANDIDA CLEANSE MEAL IDEAS

Breakfast Ideas:

Unsweetened yogurt, scrambled eggs with veggies, kimchi or sauerkraut, some berries or a tart apple

Lunch Ideas:

Salad with meat, boiled eggs, walnuts, and a homemade dressing; meat and non-starchy veggies with some berries or a tart apple and a bit of nut butter

Snack Ideas:

Hummus and peppers or cucumbers, handful of nuts, "Fooled Ya Chocolate Mousse" (using stevia) — see Kim's book for the recipe

Supper Ideas:

Meat, veggies (roasted are great!), salad, fermented veggies, quinoa, cooked cabbage, etc.

Microbiome or gut health is vital for vitality. God starts our life in the gut. When your first cell began to divide, the first thing it divided into was your gut. Rapidly, miraculously, God built the rest of you off of this foundation. So much of our modern life — from chemicals to fungicides, pesticides, stress, modern appliances, and electrical pulses everywhere — is disruptive to how we were designed. Add to this the fact that it is so easy, cheap, and addictively and deceptively "yummy" to get garbage foods, our poor little guts are having a hard time in this modern age. But moms, don't despair! We don't need to be overwhelmed. We need help. We need understanding. We need ideas and a plan! Thankfully, we have a wonderful and loving God who promises to "gently lead those that are with young" (Isaiah 40:11). So maybe read back over this simple article, praying again before you do so. "Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge him, and he shall direct thy paths." (Proverbs 3:5-6) He will even direct the path of what to cook for dinner. He loves you. He cares about a sparrow falling, so He cares about you and all the details of your life and the lives of your loved ones. And that is holy, wonderful, encouraging, and calming to the soul. I love you, momma, and Jesus loves you too!

Because the cell wall of candida (and all other fungal organisms) is made mostly of fiber, fiber digesting enzymes can break it down. When the cell wall breaks down, the yeast dies, while causing virtually no healing crisis. While candida can develop immunity to anti-fungal drugs and herbs, it has no defense against the enzymes in Candex. This product can also be taken while pregnant or nursing if needed.

Candida Support

Candida albicans is a naturally occurring yeast that typically resides in the gut as part of the normal gut flora. Candida Support is a combination of traditional herbal ingredients (Pau D'Arco, Black Walnut and Oregano Oil), Biotin (a B-complex vitamin) and Caprylic Acid (a naturally occurring fatty acid derived from plant oils) that may help to support a healthy balance of intestinal bacteria. Although Candida Support is not meant to clear Candida albicans from the gut, it can help to support a healthy balance of intestinal flora.*

**Olive Leaf Extract "d-Lenolate"** **TOP SELLER**

We've all experienced being sick. Whether a common cold or something more serious, it's never pleasant to feel under the weather – and it comes down to our immune systems. Some of us were born with strong immune systems, protecting us from getting sick most of the time; others feel we're constantly battling one bug or another. Whichever category you fit in, you can strengthen your immune system effectively and naturally with our d-Lenolate olive leaf extract. These 100% all-natural olive leaf extract capsules are made up of powerful nutrients – including a compound called oleuropein – extracted from olive leaves that eliminate toxins by working with white blood cells and balancing the body's natural chemistry. For candida use 2 to 3 capsules per day, 1 capsule per day for maintenance.

**Syntol AMD "13.6 Billion"**

A powerful yet gentle yeast cleanse that supports intestinal balance. Too much of a good thing isn't always a good thing. This is especially true when it comes to candida, a form of yeast that, in moderation, helps with digestion and nutrient absorption. But when it starts overproducing, candida releases toxic by-products into the body. This can increase gut permeability, which may lead to a host of different health problems, such as: *Bloating, constipation, or diarrhea. *Fatigue and irritability. *Immune response and bowel irritation. *Poor memory or difficulty concentrating. *And many others. There are many factors that can lead to candida overgrowth and intestinal imbalance. Antibiotics, smoking or drinking, poor nutrition, and high stress are all known contributors. The good news is you don't have to suffer any longer. Syntol, a scientifically formulated combination of enzymes, probiotics and prebiotics, is your best defense against the effects of candida overgrowth. For maximum benefits use SyntolAMD along with Floraphage Probiotic Multiplier (Item #AA1030) to increase probiotic activity. For best result take 2 capsule or more for at least 45 days.

**Aloe Vera** **TOP SELLER**

Promotes a healthy digestive system, bowel movements, and more. This is a fractionally distilled aloe. A distillate is a liquid that consists of pure components of a plant in its most basic form. It is unique in that a distillate is comprised of a low molecular weight thereby enabling the body to assimilate its components in the purest form at the cellular level. This occurs both internally, and through the skin's dermal layers, at a much higher rate than would occur if the plant's components were introduced in any other manner. This product is bitter free, tastes like water, and has no adverse flavor. Contains no preservatives or additives. For optimum function drink 2 ounces twice daily.

**Castor Oil Pack for kids**

WHAT IS IT MADE OF? Your Queen of the Thrones Castor Oil Pack for Kids is made with a soft inner layer of organic cotton flannel, an outer "less mess" layer of polyurethane, and soft, stretchy nylon straps. (Castor Oil sold separately) HOW DO I USE IT? Apply 1 tbsp of Castor Oil (sold separately) to the soft cotton side of the pack (avoiding the seams), then place the pack over the side of your child's abdominal area under their right ribcage and tie it in place. Wear for 1 hour daily. WHY DO I WANT ORGANIC MATERIALS? Castor Oil is the ultimate carrier oil and because Castor Oil Packs are designed to sit directly on your skin, it's best to use natural materials that are free of synthetic fibers, chemicals, bleach and artificial colors. WILL IT FIT MY CHILD? The pack is designed to fit over the average child-sized abdominal/torso area and can adjust to fit most kids' bodies because of the long straps. HOW DO CASTOR OIL PACKS WORK? Queen of the Thrones Castor Oil Packs help you feel relaxed and energetically balanced while also supporting firm and hydrated skin.

5 Day Bowel Detox

Your BOWEL is the LARGEST elimination organ in your body. It is the major way that waste gets out of your body. When your bowel is not working efficiently, your fecal waste is stored, and sooner or later, it becomes dehydrated and compacted in your colon. Eventually, this waste turns to sludge and will poison you by being absorbed back into your body. The FIRST STEP in any health program is cleansing and detoxifying your bowel. A sluggish, constipated, swollen bowel can compress a nearby area, putting pressure on it, causing pain, blockage, inflammation, disease, or emit infection and toxins, which can affect any area of the body. A blocked colon can cause an almost endless list of symptoms and ailments like abdominal discomfort, allergies, anxiety, asthma, backaches, constipation, cramps, depression, fatigue, food cravings, headaches, hemorrhoids, indigestion, insomnia, irritability, lack of intimate response, loss of concentration, memory loss, menstrual problems, nausea, poor appetite, prostate trouble, skin problems, and weight gain. This is a 5 day program.

Liquid Herbal **TOP SELLER**

A great overall detox formula! Contains; Burdock Root - This Herb is known as a "blood purifier." It helps eliminate toxins from the blood and lymphatic system. The liver, gall bladder, kidneys, and digestive system all benefit from its properties. It also helps with the elimination of excess fluids and the regulation of sugar. Sheep Sorrel - This herb is rich in vitamin A, B-complex, C, D, K, and E. Its minerals include significant levels of calcium, iron, magnesium, silicon, sulfur, zinc, manganese, iodine, and copper. Sheep sorrel is also rich in chlorophyll. Chlorophyll increases oxygen content in the blood. High blood oxygen can increase the body's action against many invasive conditions. Cat's Claw Bark - This herb supports a variety of digestive and upper respiratory disorders. It's great for circulation, rheumatism, gastritis, ulcers, and some allergies. Slippery Elm Bark - This herb is a natural antibiotic and has exceptional cleansing properties. It helps coat and lubricate the artery wall, which helps blood flow. It has also been shown to protect membrane linings in the joints and can provide relief of inflamed areas. Chinese Rhubarb - This herb has been used in China for more than 2,000 years. It has very impressive detoxifying properties, especially in the liver. This herb also has antibiotic and anti-microbial properties. The herbs have no pesticides and are certified organic. Just one fluid ounce a day (approx. 2 tablespoons) is all you should need.

Foundational Detox Protocol **NEW**

The Foundational Protocol is a four-month approach to supporting detoxification, intended for individuals who are looking to balance their gut microbiome, increase their energy levels, and optimize their digestive and immune health. This is an ideal protocol for anyone looking to periodically promote cleansing for an overall wellness boost. This step-by-step process allows the body to detox efficiently by first ensuring the drainage funnel is functioning properly, and supporting mitochondrial energy. Each step thereafter supports the detoxification process throughout the body, increasing coverage with each step.

Body Detox

Body Detox is designed to help remove toxins and pesticides out of our body. Removing what should NOT be in our body is just as important as putting good nutrients into the body. These poisons can cause many diseases and illnesses - especially in the organs. We have also added nutrients that will penetrate the blood-brain barrier and the central nervous system. Finally, we add nutrients that help all the others work together in a synergy that protects the body and arteries.

Cod, Omega, & Coconut Oils

Cod Liver Oil "Extra Virgin"

Rosita EVCL0 is real Norwegian cod liver oil that is fresh, raw & handcrafted from wild livers using a very rare ancient extraction technique which uses nature to separate the oil from its liver. No chemicals, solvents and mechanical devices are ever used during the extraction process. The oil is completely unrefined and produced under the total absence of heat, a process that allows the many natural vitamins and nutrients present in cod liver oil to stay intact. This type of cod liver oil is both precious and rare – something that is almost impossible to achieve on industrial level and something that is not very cost effective. Rosita cod liver oil has a pale/golden color and a mild, but in no way repulsive, fishy taste. It is thoroughly tested by leading universities and government-linked institutes. A true ancient oil in today's modern world, and one that their Norse ancestors would have been proud to consume!

Maximum Omega 2,000mg

Maximum Omega 2000 provides 2,000 mg of omega-3s per serving, including 1,250 mg of EPA and 500 mg of DHA to promote heart, brain, vision, and joint health. The American Heart Association (AHA) recommends eating at least two 3.5-ounce servings of fatty fish per week in order to get an adequate amount of omega-3s. Fatty fish, including salmon, mackerel, and sardines are a great source of omega-3s; however, most of us don't get enough fish in our diet to reach the recommended intake, so a supplement may be a great option.

Omega-3

The nerve cells in the human brain have a lot of cell membranes that require fatty acids, and when you stock your brain with adequate amounts of omega-3 fatty acids, you give it the cell membrane building blocks it needs to operate with peak connectivity and processing performance. The omega-3 fatty acids in Omega-3 Power are critical to building healthy cell membranes, which are crucial for all our cells to work and essential for our brain cells to make the trillions of connections that enable peak cognitive, mood, and behavioral performance. Most Americans are deficient in omega-3s, getting barely a third of the daily amounts they very likely need for optimum brain and body health. Each serving of Omega-3 Power provides 1,600 mg of DHA, EPA and other omega-3s from ultra-purified, high-quality fish oil.

It Starts in the Mouth: Supporting Oral & Gut Microbial Health

By Sarah Herrington, MS CNS — Clinical Science Liaison at Microbiome Labs

INTRODUCTION TO THE ORAL MICROBIOME

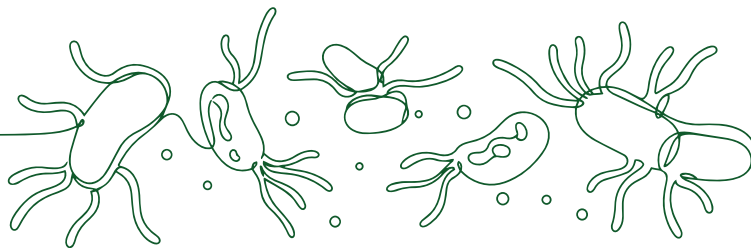

“Brush your teeth twice a day for 2 minutes and remember to floss” has long been the standard when it comes to supporting dental health. It’s a habit we teach our children to prevent cavities and tooth decay, and an important piece of support for our wellbeing. Only recently has it been enlightened that not only are these practices important, but there are also supporting microbes and beneficial bacteria in our body that influence our dental and systemic health.

The human microbiome is a robust community of microbes, their genetic material, and metabolites that have a profound impact on various aspects of human health. You may already be familiar with the gut microbiome, which is by far the most populous of these communities, but we also have unique microbiomes in other organ systems. The oral microbiome is the second largest microbial community in the human body. This community is an often-overlooked player in digestive health, as well as dental health. Understanding how to support these microbes can be an integral part of not only supporting oral hygiene but also supporting overall health and well-being.

GETTING TO KNOW THE ORAL MICROBIOME

The oral microbiome is incredibly diverse, housing trillions of microbes and more than 700 different bacterial species. These microbes live on the surface of teeth, as well as cheeks, tonsils, throat, saliva, and gums. They protect against pathogens, support digestion, and modulate immune responses. A balanced oral microbiome acts as a first line of defense, preventing harmful bacteria from influencing gum disease, cavities, and systemic inflammation. However, an imbalance in the oral microbiome, which we will refer to as a ‘dysbiotic environment’, can allow for the growth of microbes that can be potentially harmful. When beneficial oral microbes are diminished and pathogenic or opportunistic microbes are able to flourish, this may influence disease states such as periodontitis, gingivitis, halitosis (bad breath), delayed wound healing and erosion of enamel.

Disruption in the oral microbiome can be triggered by poor oral hygiene, a high intake of sugar, smoking, alcohol, antibiotics, stress, and poor sleep. Due to the communication between oral microbes with other organ systems, conditions such as inflammatory bowel concerns and metabolic disease can be correlated with oral dysbiosis.

THE GUT-ORAL AXIS: A TWO-WAY STREET

The oral-gut axis refers to the bidirectional communication between microbes that reside in the mouth to the gut, and vice versa. During the digestive process, microbes from the oral cavity can often translocate to lower portions of the GI tract. Acid in the stomach generally neutralizes microbes when swallowed with food and saliva before they reach the lower portions of the digestive system. However, if some mechanisms are compromised, such as in the case of decreased stomach acid (hypochlorhydria), small intestinal bacterial overgrowth, and the use of proton pump inhibitors, oral pathogens may survive to colonize within the gut microbiome. Here, they can be potentially disruptive to microbial balance, such as by influencing levels of inflammation. It is also possible for gut microbes to translocate to the oral cavity through mechanisms such as acid reflux, immune signaling throughout the host's body, and systemic circulation. This reverse translocation can also contribute to oral dysbiosis.

Strong microbial health in the gut microbiome can positively influence oral health. For example, short-chain fatty acids produced in the gut microbiome can play critical roles in immune modulation as well as influence the integrity of the gut barrier to protect the body from microbial movement. A diverse gut microbiome, paired with a healthful diet, also ensures the absorption of dietary minerals such as calcium and vitamin D, which are important for tooth and gum health.

NATURAL SOLUTIONS

Supporting oral health and the oral microbiome can be multifaceted. Lifestyle factors can play a significant role in maintaining balance, such as by:

- Practicing good oral hygiene daily using products with naturally-derived ingredients
- Avoiding excessive use of antibiotics or antimicrobials in the mouth⁸
- Consuming a diverse, high fiber diet⁷
- Managing stress and sleep through your preferred practices
- Limiting alcohol intake
- Quitting smoking

Additionally, supporting the gut-oral axis itself can be a powerful way to support both oral and systemic health.

SUPPORTING THE ORAL MICROBIOME THROUGH GUT BARRIER STRENGTH & FUNCTION

A strong gut-mucosal barrier helps to protect the host from microbes translocating from the gut microbiome, as well as helping to control inflammatory pathways. Pro-resolving mediators, found in omega-3 fatty acids, help suppress the production of pro-inflammatory cytokines³. Specific amino acids can also support the synthesis of colonic mucous by 95%, such as those found in Microbiome Lab's MegaMucosa™⁴.

VITAMINS & MINERALS

Vitamin's D3 and K2 play a synergistic role in supporting the health of bones and teeth. Vitamin D3 enhances calcium absorption, while vitamin K2 activates proteins called osteocalcin and matrix Gla-protein, which help to move calcium away from arteries and into bones and teeth.

SUPPORTING BENEFICIAL GUT BACTERIA WITH PROBIOTICS & DIGESTIVE AIDS

Probiotics, specifically Bacillus spores, can promote the growth of beneficial microbial species that help modulate the immune response, maintain normal inflammatory processes, support gut barrier integrity and the production of

short-chain fatty acids. They also may help keep harmful or opportunistic microbes in check, supporting both oral and systemic health. Digestive aids, such as licorice root extract, artichoke leaf extract, and ginger root extract may aid upper GI digestion and potentially reduce oral microbe translocation.

PRODUCT RECOMMENDATIONS TO SUPPORT THE GUT-ORAL AXIS

- **MegaSporeBiotic™**: A 100% spore-based, broad-spectrum probiotic shown to maintain healthy gut barrier function. This unique all-spore formula effectively supports the gut by promoting microbial diversity and maintaining key health-promoting, commensal gut bacteria.
- **MegaMucosa™**: The first complete mucosal support supplement of its kind, formulated to support a healthy mucosal barrier.
- **MegaMarine™**: A full-spectrum fish oil scientifically formulated to support a healthy gut microbiome with a superior ratio of EPA, DHA, and the "forgotten" DPA to support healthy immune and gut barrier function.
- **MegaQuinK2+D3**: A high-potency, bioactive Vitamin D3 with Vitamin K2 supplement that represents a new approach to supporting bone, heart, nerve, mitochondrial, and immune function.
- **MegaGuard™**: A novel digestive aid that combines licorice polyphenols, cleansing artichoke leaf extract, and soothing ginger to promote normal digestion, regulate stomach acid, maintain healthy H. pylori levels, and reduce occasional digestive discomforts such as gas and bloating.

**Brushing Rinse**

Essential Oxygen Brushing Rinse provides a better way to brush your teeth for a healthy and radiant smile. This amazing rinse is part toothpaste and part mouthwash. It works for all oral issues including natural teeth whitening, gum pockets and receding gums, tooth sensitivity, bad breath, tartar, canker sores and toxic morning mouth. Each ingredient is high quality and all-natural.

Morning Mouth Protocol

While we sleep at night our bodies are in cleanse cycle and our saliva doesn't circulate. Consequently, we wake up with a mouthful of bad oral bacteria and not the best breath. Rather than swallow this bacteria with your first drink of water, spit it out and swish with the rinse for 30 to 60 seconds while you do other morning activities. With the rinse still in your mouth, brush your teeth and tongue. Your mouth and your immune system will thank you.

Drinks 'Coffee, Cocoa & Hot'

Healthy Morning Coffee **TOP SELLER**

Are you looking for a very smooth tasting organic coffee that is easy on your stomach, less acidic, and less bitter. If so you have found the perfect coffee! This coffee is infrared roasted. This simply means that during the roasting cycle, the coffee beans are not exposed to an open flame like most of the other coffee roasters do in the country. Infrared roasted coffee is never burnt, noticeably smoother, and less acidic; making it more friendly for all ages, digestive and dietary concerns, and fitness levels. When you burn the coffee beans, you rupture the cells of the bean, which disperses the coffee volatiles/oils. As a result you reduce the coffee yield per pound. With infrared roasting, the cells are not ruptured and the bean retains more volatiles/oils generating a higher cup yield and in turn more cups per pound of coffee. Through State-of-the-Art roasting technology, we can evenly roast all our coffees to the exact roast level you are seeking each and every time. Every bean is gently and evenly roasted, which allows the acids in the bean to be converted into sugars [This Coffee is still Sugar Free...and has NO ADDED SUGAR], providing you with a very full, rich and smooth finish. This black coffee is noticeably smoother and tastes more pleasant/sweeter than traditional roasting. This coffee is also great to use when baking etc. So go ahead and help yourself to one awesome cup of coffee! A 2 oz. pack makes approximately 12 cups of coffee and a 12 oz. bag approximately 72 cups.

Red Neurotrophic Coffee

Boosts a key neuroprotein – BDNF, increases brain connectivity, improves cognitive performance fast and over time, derived from sustainably sourced coffee fruit.

Less than 2% of all the world's coffee roasters use this proprietary patented and scientific technology that produces a true lower-acidic coffee that is both delicious and smooth. No flame is ever applied, so our coffee is never burnt, never bitter, and always draws out the richest flavor profiles to deliver a consistent and exceptional tasting coffee experience every time.

Throat Coat Tea

Slippery elm or Ulmus rubra (Latin for "red elm," so called for its lovely reddish bark) is a beautiful, native North American elm tree. It's the inner bark of this tree that is actually called "slippery elm" due to its, yes, slippery, smooth, and slimy-in-a-good-way properties. Combined with licorice and marshmallow root, we think this tea blend is like taking your voice to the spa—because we all need a little comfort sometimes so we can get back to being our best.

Spearmint Tea

We like to think of spearmint as the fun-loving, slightly less intense cousin of peppermint. In fact, spearmint and peppermint are so closely related, and look so much alike, they're often confused for one another. Soft and sweet, with that characteristic minty zing, spearmint is so named because of its pointy, spear-like leaves. Milder than peppermint, it is still aromatic and refreshing. We love it for its distinctly spearminty, mildly sweet flavor.

Ear Wax Removal Kit **TOP SELLER**

The Kyrosol Ear Wax Removal System was developed to dissolve excess ear wax, soften ear wax plugs, or to prevent the recurrence of ear wax plugs. It is also used to dissolve and flush out hard, dry or impacted wax build-ups. The irrigator tip was designed for optimum safety and effectiveness as it cannot damage the ear drum. The syringe feature allows the user to control the flow for maximum comfort during the rinsing process. Kyrosol uses a glycerin-based, wax solving solution and was developed to dissolve and flush out hard, dry or impacted wax buildups. The single dose pipette not only makes it very easy to dispense the correct amount of solution into the ear, but is also very hygienic as there is no risk of contamination as with bottled ear wax removal solutions.

Midday Focus Greens Powder

Enjoy this upbeat Citrusy blend with replenishing hibiscus flower, sweetened with monk fruit and NO added sugar! With unique powerhouse botanicals like Lions Mane Mushroom, Blue Spirulina, Nettles and Coconut Water, this drink will help you refocus, replenish and repair your mind and body when taken daily. Like our Morning greens, this thoughtful Midday blend is full of fermented, deeply nourishing ingredients, probiotics and enzymes, and may be even more digestible for those with food sensitivities. It contains no brassicas (kale/broccoli) and NO caffeine, making it an excellent beverage for kids and people just getting started with nutritional drinks. It is also a great kids morning "off to school" drink. Think of it as your After formula: After the "midday slump" of busy workday.... After school to recharge the diligent Mama, before the kids come home... After a jog or workout to replenish essential electrolytes (Coconut water, ACV, Maca)... After (or before) a mentally demanding day, to boost focus, mood and cognition. Whenever you take it, your brain and body will thank you!

Each day, many Americans turn to stimulants – guarana, yohimbe, caffeine, ephedra, ma huang, etc. – to help them get through the day. But, instead of generating energy, stimulants drain it, leaving us weaker than ever and placing extreme stress on the adrenal glands and the cardiovascular system. Energy Plus™ reflects the holistic reality that the body can produce abundant energy only when all its systems – and all its cells – work in perfect harmony. EnergyPlus may support the energizing and repairing of the cells throughout the body, so that they can more efficiently make energy of their own. EnergyPlus helps support clean, clear energy that you may feel within minutes and may last for hours.

Methyl-Mate B12 Liquid

Methylcobalamin or Methyl B12 is a form of vitamin B12 that is considered to be more absorbable and effectively utilized than other forms of B12. Adequate levels of Methyl B12 are needed to protect nerve tissue and maintain the myelin sheaths that cover the nerve endings. Vitamin B-12 is required for proper digestion, absorption of foods, protein synthesis, and anemia prevention. Helping to metabolize fats and carbohydrates, it aids cell formulation and longevity. Vitamin B-12 promotes development of healthy red blood cells and maintenance of nerve tissue. Adequate levels of this vitamin is important for the creation of glutathione and to assist the body in detoxification. As a dietary supplement, take 5 drops per day or as suggested by your physician. For best results, hold in the mouth, preferably under the tongue, for one minute before swallowing. For young children, a few drops at a time can be squirted under the tongue to allow for more effective absorption.

Gallexier Herbal Bitters **TOP SELLER**

Bitters for Better Digestion! We all love to eat, but what we dislike is that sluggish feeling and uncomfortable sense of fullness that often comes in the aftermath of a heavy or hearty meal. A common tradition in Europe, bitters have been cherished for centuries to help make the eating experience more enjoyable. Many of the gastrointestinal problems people experience today were very rare among our ancestors. It is actually the bitter taste in the mouth that triggers the optimal functioning of our digestive process. The combination of stimulating herbs and bitter food extracts in Gallexier makes for a pleasant, mellow tasting digestive aid to accompany or to round off the main meal of the day.*

Digest-a-core

Good health begins with proper digestion. Specialized cells in the pancreas, stomach, and salivary glands produce digestive enzymes. The Digest-a-core enzyme blend, along with enzymes found in live foods, facilitate the breakdown or digestion of food, which is how the body absorbs nutrients and eventually produces energy. When we eat a meal, producing digestive enzymes is a high priority for the body, requiring energy and adding stress to the pancreas. Taking a digestive enzyme formula can support normal digestion, nutrient absorption, and overall health.

Maximizer **TOP SELLER**

Aids Digestion. Maximizer is a plant enzyme supplement that contains 16 different types of digestive enzymes to aid in the pre-digestion of all the foods. This allows your body to use metabolic enzymes to do their vital work, rather than use them for food digestion.

Each vegetarian capsule contains four different types of enzymes to digest proteins, three types for digesting fibers, a powerful enzyme for digesting fats and oils, two types that reduce starches, and six types of enzymes for sugars, grains and dairy products.

Gastronex Digestive Enzymes Plus

Gastronex is perhaps the most potent, unique digestive supplement available. This is because it is a blend of natural enzymes plus wild and remote-source spices—and it is well known that spices support digestion. This is a powerful combination, which is unmatched for digestive support. No other digestive support formulas combine enzymes with spice extracts. The spices strengthen healthy digestion, stimulating natural secretions, and the enzymes break down the food. Ingredients; Ginger powder (solvent-free), Crushed fresh coriander seed, Crushed fresh fenugreek, Crushed fresh cardamom, Wild oregano blend (P73), Enzyme blend -protease, amylase, lipase, cellulase, lactase, bromelain, papain.

Digestion GB

Digestion GB contains gallbladder digestive enzymes, bile salts, taurine, and herbal extracts to promote healthy gall bladder function and fat utilization. The metabolism of fats involves emulsification and digestion in a complex process that requires healthy liver, gallbladder and pancreas function. Milk thistle, curcumin, and taurine promote liver and gallbladder health and stimulate production and secretion of bile acids. Bile acids, also provided in the form of ox bile salts, support the emulsification of fats necessary for digestion. The digestive enzymes included in this formula are active in a broad pH range to support fat, carbohydrate and protein digestion to complement pancreatic enzyme activity. This formula has enhanced lipase for extra fat digestion support.

Eye Health

**CAN-C Eye Drops** **TOP SELLER**

Can-C eye drops are the original N-acetylcarnosine (often shorted to NAC) eye drop formula developed to normalize senile cataract impairment. In addition to senile cataract impairment, Can-C may also have other benefits. Although the information is not yet published, Russian researchers believe that the unique Can-C formula with its added and synergistic lubricants, could also have benefit in the following eye disorders. Users and scientists have reported that Can-C is also great for: Dry eye syndrome. Benefit for those who wear contact lenses, particularly soft contact lenses. (Not only do the lubricants in Can-C help contact lenses more comfortable, but N-acetylcarnosine is also believed to inhibit the build up of lactic acid in the eye, meaning you can wear them in comfort for longer.) Corneal disorders. Computer vision syndrome. Eye strain. Ocular inflammation. Blurred vision. Presbyopia. Retinal diseases. Vitreous opacities and lesions. Complications of diabetes mellitus and other systemic diseases. Open-angle primary glaucoma."

Endovan **TOP SELLER**

Endovan works with your body to target the root of the problem and has historically been used for high blood pressure, preeclampsia, endometriosis, fibroids, ovarian cysts, and breast lumps. Many women's reproductive health issues are caused by the body's inability to break down excess fibrin. This unhealthy fibrin plays a major role in the development and exacerbation of fibroids, ovarian cysts, endometriosis, and breast lumps. Endovan's unique formulation is designed to naturally boost your body's ability to target and degrade excess fibrin and relieve the associated adverse symptoms. What To Expect; Results will depend on the severity of your symptoms but some women notice improvement in the first one to two months with continued progress in subsequent months. Important: While successful for the majority of users, not all women respond to Endovan. Stop use while having your period then continue afterward. Can also be used by men.

Tick Twister **TOP SELLER**

Ticks are more than just a nuisance—they can carry infections. Traditional removal methods often squeeze the tick, increasing the risk of disease transmission, or leave the mouthparts embedded in the skin. Invented by a French veterinarian, the Tick Twister is the safest and easiest way to completely remove ticks, including their mouthparts, without squeezing or causing pain. Includes 3 hooks with special silicone easy grip handles - a large hook for engorged adult ticks, a small hook for adult ticks and a new micro hook for removing larva and pupa (nymph) ticks. Tick Twister removes ticks completely from even hard to reach places (navel, knee folds, armpits, behind the ears), without leaving the tick's rostrum implanted in the skin and without compressing the tick's abdomen. Comes in a mini box with instructions. Tick Twister hooks are durable and can be reused indefinitely. Great for people pets. Every camper, hiker, and pet owner should carry a Tick Twister. Keep yourself and your pets safe—get yours today!

MCT Oil **TOP SELLER**

Medium Chain Triglycerides (MCTs) are fats that are naturally found in coconut and palm kernel oil. MCTs are more easily and rapidly digested than other types of fats, as they require lower amounts of enzymes and bile acids for intestinal absorption. MCTs are metabolized very quickly in the liver and are reported to encourage energy expenditure, and not fat storage. Numerous studies suggest that substituting MCT Oil for other fats in a healthy diet may therefore help to support healthy weight and body composition.* This can be used instead of vegetable oil in baking and cooking.

Apple Cider Vinegar "Organic" **TOP SELLER**

Made from a delicious blend of apples raised using no chemical insecticides, fungicides, herbicides, or chemical fertilizers...it's only natural! The fresh organic apples are pressed to make organic apple cider, which is allowed to ferment in the presence of oxygen. It then converts the naturally occurring sugar content of the apple into an organic acid, which produces our healthful vinegar. Part of the natural fermentation process is the growth of friendly probiotic bacteria, as well as proteins and healthy enzymes. Together these are called the "mother culture". That is why the best organic apple cider vinegar is raw, unfiltered, and includes the mother culture...it's only natural!

Sparx Candy **TOP SELLER**

SparX® are naturally flavored little candy "dots" that are rich in Xylitol and calcium. Kids love the great taste, while parents can feel confident that they are giving their kids a treat that actually helps improve dental health.

Over 25 years of clinical testing confirms that xylitol is the best sweetener for teeth. Frequently eating foods high in sugars and starches can promote tooth decay. Xylitol, unlike other sweeteners, may reduce the risk of dental cavities. Sugar-free chewing gums and candies made with this sweetener have already received official endorsements from six national dental associations.

Food Spices & Seasonings

**Pluck Seasoning** **NEW**

Pluck seasonings are all about getting quality organ meats from animals that are grass-fed with no GMOs or hormones, as close to nature as possible. Organ meats are nature's multivitamin, packed with bioavailable nutrients your body can easily recognize and absorb. But here's the thing—most people don't want to eat liver or kidneys. That's where Pluck comes in. It's the perfect gateway to organ meats because it doesn't taste like organ meat. What you taste is the savory deliciousness of umami, the fifth taste. Just sprinkle it on like salt and pepper, and you've turned any meal into a nutrient-rich superfood.

Sprouting Jar with Lid **TOP SELLER**

Start your own sprouts with this handy sprouting jar. Directions; Place two tablespoons of sprouting seeds or 1/2 cup of legumes/grains in a sprouting jar with three times as much water as seeds. Soak overnight. For many small seeds, five hours of soaking is sufficient. 2) Drain the water from the jar. Rinse seeds in fresh, lukewarm water and drain again. For well drained seeds/sprouts, lay jar at an angle in a warm (70° F), dark place. 3) Rinse and drain seeds twice a day. In hot and dry weather, you may need to rinse the seeds three times a day. In very humid weather, the seeds should be kept in a dry place. Turn jar over gently. Overturning the jar rapidly will cause shifting in the sprouting seeds. This can break the tender shoots and kill the sprout. This breakage causes the sprout to spoil. Sprouts should be ready to eat in 3-5 days, depending on the seed used. Put in sunlight during the last day to add chlorophyll.

Confectioner's Erythritol "Organic" **TOP SELLER**

Replaces Powdered Sugar. This Organic Confectioner's Erythritol is the perfect replacement for powdered sugar in your favorite recipes. Use it for frostings and icings, or dust it over desserts, fruits or baked goods. Erythritol is a natural sweetener known as a sugar alcohol that's about 70% as sweet as refined sugar. It has 95% fewer calories than sugar, a low glycemic impact, and it doesn't contribute to tooth decay. You get the sweetness of sugar without any of the bad stuff!

-----------------------	--------

Erythritol **TOP SELLER**

Erythritol is a naturally-occurring sugar alcohol derived from a corn source and is naturally found in small amounts in various plants, fruits and fungi, including mushrooms. It contains virtually no calories (95% less calories than table sugar), has a low glycemic impact, and doesn't contribute to tooth decay. Basically all the bad things about sugar are absent in Erythritol, yet it tastes just like sugar and is about 70% as sweet.

**Xylitol** **TOP SELLER**

Xylitol is a sugar alcohol that is naturally present in small amounts in various fruits and vegetables. It was originally extracted from birch trees in Finland. NOW Xylitol is derived from non-GMO corn. It is comparable to xylitol derived from other sources, such as birch.

It resembles sugar in consistency and taste, but has a third fewer calories and is a great sugar alternative for diabetics. Xylitol may also inhibit cavities by denying plaque bacteria, the fuel (sugar) it needs to erode tooth enamel. It can be used as a sugar substitute in most sugar-free recipes.

**Organic Blackstrap Molasses** **TOP SELLER**

Experience the many benefits of Plantation Organic Blackstrap Molasses, 15 fl. oz. The thick syrup is delicious, natural and rich in nutrients, making it a superb replacement for white sugar. This unrefined blackstrap molasses provides a significant source of iron, calcium and potassium. A byproduct of refining sugar cane, it has a subtle nutty flavor. This organic molasses offers an excellent way to add sweetness to many different foods. It can be used in tea, coffee, hot breakfast cereal or baked goods. Keep it on hand to add depth of taste to baked beans and homemade barbecue sauces.

PL5140 (15 fl. oz.) \$10.35

**Blackstrap Molasses**

Taken from the third and final pressing of the sugar cane, Blackstrap Molasses naturally retains the rich mineral content and subtle, nutty flavor that refined sugar lacks. Exciting new suspension product combines slippery elm bark powder with other herbs that support normal digestive function and a healthy digestive tract. When mixed with water the suspended slippery elm bark powder absorbs the water and becomes characteristically thick and mucilaginous (slimy). One teaspoon of Slippery Elm Compound makes 4 teaspoons of slimy goodness your throat and digestive tract will love. Botanical Ingredients: Slippery Elm bark powder, Licorice root, Fenugreek seed, Calendula flower, Orange peel, Ginger root, Cinnamon bark, Clove bud.

Other Ingredients: Distilled Water, Vegetable Glycerin, Organic Wild Flower Honey, Organic Grain and/or Cane Alcohol, Organic Apple Cider Vinegar, Omega 3 Blend (oregano extractive, flaxseed extractive, plum extractive). Suggested Use: Shake vigorously before use. Mix 1 tsp. (5 ml) with 1/2-1 oz (15-30 ml) water or herbal tea. Stir well and let sit 1-5 min. to hydrate. As the suspended slippery elm absorbs water it will develop its naturally heavy consistency. Take 3-4 times daily, or as needed. Store in a cool dry place. Do NOT refrigerate.

These IgG antibodies can reduce the damage of metabolic endotoxemia and neutralize LPS, an endotoxin that triggers mucosal activation. There are four key amino acids that play an important role in the production of intestinal mucosa including: L-proline, L-serine, L-cysteine, and L-threonine. These four amino acids have been shown to increase mucin2 production and stimulate mucin synthesis in the colon, resulting in a thicker and healthier mucosal barrier. For maximum results use this product along with Mega SporeBiotic Probiotic #MBL2500 and Mega Prebiotic Powder #MBL2505. Now available in capsules!

Promotes a healthy digestive system, bowel movements, and more. This is a fractionally distilled aloe. A distillate is a liquid that consists of pure components of a plant in its most basic form. It is unique in that a distillate is comprised of a low molecular weight thereby enabling the body to assimilate its components in the purest form at the cellular level. This occurs both internally, and through the skin's dermal layers, at a much higher rate than would occur if the plant's components were introduced in any other manner. Artery Care **TOP SELLER**

Designed to assist cleaning and maintaining a healthy cardiovascular system, help strengthen heart muscles, and slow down aging by boosting the immune system. The secret to Artery Care's good results is a right combination of essential ingredients in their proper amounts. If the arteries are lined with plaque and partly closed, the heart has to work harder to pump the blood through the vascular system. This can be the cause for high blood pressure. If plaque breaks off and lodges in a restricted area, it can cause a stroke and death. Why take a chance on the #1 killer?

Circulation Cardio Support **TOP SELLER**

Circulation Cardio Support (formerly known as L-Arginine Complete) was formulated to naturally reduce the risk of cardiovascular disease including, Heart Attack, High Blood Pressure Stroke, High Cholesterol and Neuropathy. It has been well known in the medical community that people suffering with cardiovascular issues such as high blood pressure, high cholesterol, poor circulation, peripheral neuropathy and even low libido are more than likely lacking the life saving molecule we call NITRIC OXIDE. Science has discovered that by taking the correct amounts of the amino acids L-Arginine and L-Citrulline, one can easily reverse this lack of Nitric Oxide and reduce the risk of suffering from the painful and sometimes deadly effects of heart disease, namely heart attack and stroke.

**CoQ10 100mg "Orange Flavor"**

CoQ10 plays an important role in the body's energy production and is an essential component of the mitochondria, where it helps to metabolize fats and carbohydrates and maintain cell membrane flexibility. CoQ10 is also involved in the production of several key enzymes that are used to create ATP (Adenosine triphosphate), a key energy storage molecule. Without CoQ10, you would not be alive. CoQ10 is also an effective antioxidant that may beneficially affect the aging process. As we age, our body's production of CoQ10 declines by as much as 80%. Because it is so important to energy production, and therefore life, researchers believe that this decline may be a factor in the effects of aging on the human body. The highest levels of CoQ10 are found in tissues in the body that work the hardest; like the heart, the liver, etc.

Garlic “The Natural Antibiotic”

By Leroy King

ABOUT

During the children of Israel’s journey through the wilderness to the promised land, they turned toward Moses and started complaining about their diet in the wilderness. They complained to Moses and said, “Who will give us flesh to eat?” The heavenly food that God was so faithful in sending them was no longer enough for them and they said, “We remember the fish we ate freely in Egypt, the cucumbers, the melons, the leeks, the onions and the garlic. But now our soul is dried away; there is nothing at all, beside the manna before our eyes.” (Numbers 11:5-6)

Think about this; if the children of Israel remembered the garlic that well, and they longed for it enough to complain about it, this tells us how important it was to them. This however, does not excuse them of their complaining because the bible says, “The anger of the Lord was kindled greatly”.

Garlic “*Allium sativum*” has been used throughout history, all the way back to the bible times for culinary and medicinal properties. It is known for its pungent flavor and aroma which can enhance a variety of dishes. In addition to its culinary uses, garlic has been recognized for its health benefits, including its potential to boost the immune system, reduce blood pressure, and improve cardiovascular health. Garlic was used to fight infections on the battlefields of World War I. Until 1942 when penicillin was made, doctors routinely used garlic to kill virus, bacteria and fungus. Garlic still works well for antibiotic. Although it tastes worse and needs to be taken more often, it has been used for the common cold, in combating hypertension, and for ridding parasites.

GROWING GARLIC

Garlic thrives in rich well drained soil. When planting the garlic, use the largest cloves possible, otherwise the result may be a smaller bulb to harvest. Garlic also does not like competition such as weeds, so be sure the bed is weed free and space the cloves 4-8 inches apart and 1 to 3 in. deep. There are two common varieties of garlic: hard neck and soft neck. Hard neck garlic is generally grown in cooler climates and produces relatively larger cloves, whereas soft neck garlic is generally grown closer to the equator and produces small, tightly packed cloves. The garlic scapes are removed to focus more energy into the bulb growth. Garlic is planted at the onset of fall; it is harvested in the early summer.

ACTIVE COMPOUNDS

There are two main medicinal ingredients which produce health benefits of garlic: Allicin and Diallyl sulfides. Allicin does not occur in “ordinary” garlic, it is produced when garlic is finely chopped or crushed. The finer the chopping and the more intensive the crushing the more allicin is generated and the stronger the medicinal effect.

How does it work?

Here is a simple overview of how garlic works. A bulb of garlic has four to sixteen or more cloves. Each of these cloves have cells containing the main compound of garlic, and amino acid called alliin. The enzyme called alliinase resides in

separate cells.

Whenever the cellular walls separating them are damaged, some of the enzyme comes into contact with the amino acid and this sets off a chemical reaction that causes sulfenic acid to form instantly. But sulfenic acid is unstable and reacts with itself and breaks down at a steady rate into another unstable compound called allicin, which has a strong antibiotic property.

Allicin is the “magic bullet” in garlic from which its many benefits are derived. Because garlic forms the active compound allicin steadily and in regular spurts, rather than all at once, it is better to chop it fine and let it set for 15 minutes to an hour before using it in order to build up a greater amount of allicin.

COLD & FLU FIGHTER

One of the simplest ways to use garlic as an antibiotic is to chop it or grate it finely and let it set for about 10 minutes. This gives the allicin time to activate in the air before you use it. Swallow it without chewing, if you wish to reduce the problem of garlic breath. Or, if you find the taste of garlic too distasteful, drizzle it with raw honey before swallowing. Do this for all kinds of infections. If you find it difficult to use the raw garlic in these ways you can also purchase Super Tonic. The tonic has horseradishes and onions in, but it would be a simple replacement for those who aren’t DIY people.

Ech-N-Elder **TOP SELLER**

The perfect synergistic blend of your favorite immune support herbs – Organic Elderberry and Echinacea. First, we start with our own Echinacea, which if you have ever tried, you've already noticed that it is extraordinary. That is because it isn't just a simple extract of the herb, but a compound extraction that includes all three parts of the Echinacea purpurea, grown here on our farm, as well as Echinacea angustifolia, to provide you with the full spectrum of Echinacea's immune boosting goodness. To the Echinacea we add Organic Elderberry (Sambucus nigra) which has a long standing reputation as an immune system tonic. The rich, fruity notes of the elder berry combine well with the tingly echinacea to give your taste buds a treat as well as your immune system. Suggested Use: 2-3 droppers with water or herb tea, 3-4 times daily, or as needed. Store in a cool dry place. Shake well before use.

B17 is a substance found naturally in over 1200 different foods, including the seeds of many kinds of fruits, such as apricots, plums, cherries, oranges, nectarines, apples and peaches, as well as many raw nuts. Our natural B17 supplement is extracted from apricot seeds. B17 was the name given to the purified form of the molecule by a biochemist named Ernst T Krebs in 1952. It is a non-toxic natural product found in over 1,200 foods. Today B17 is extracted from apricot seeds. Why is B17 Important?

We believe that a balanced diet is essential to a healthy life. Few of us consume enough vitamins and minerals from the foods we eat. Nutritional supplements become necessary for optimal body function. B17 is just one of the many nutrients our body needs.

Garlic 5000 Odor Controlled

This garlic product is standardized to yield allicin and allicin precursors, which convert to allicin when ingested. It is enteric coated so that this conversion occurs in the upper intestine for optimal absorption, while it avoids the release of garlic's pungent odor in the stomach. Allicin precursor levels are achieved through a special process that keeps garlic's moisture low. This process maintains allicin precursors while preserving all of the natural goodness of whole fresh garlic. Enjoy the benefits of this odor-controlled garlic tablet!

The herbs in these formulas are famous for their ability to stimulate, cleanse and protect the liver and gallbladder, along with ridding the body of harmful and dangerous invaders that can enter the body through diet or just from an unhealthy, polluted environment. Milk Thistle contains many phytochemicals that strengthen the structure of the liver cells' skin or membrane, which in turn prevents the penetration of toxins and microscopic intruders. Ingesting Milk Thistle is like putting a protective coating around your current liver cells, while also speeding up the repair process for building strong new cells. Oregon Grape Root, Artichoke Leaf, Gentian Root, Wormwood Leaf and Dandelion Root are some of the most bitter plants on the planet, and all these bitter herbs stimulate and flush out your liver. Black Walnut Hull, Wormwood and Garlic are strong antiparasitic plants. Use along with item "Superfood Plus" powder or tablets (Not included in this kit). Magnesium Spray "Wild'erb"

This Magnesium Spray absorbs quickly and is fragrance-free. Spray on arms, legs, torso, as much surface area as you can, and simply rub in until dry. Apply morning and evening if possible for best results. You can't apply too much since the body won't absorb any more than it needs. Known as "magnesium oil", this is a supersaturated solution of magnesium crystals in our herbal extract blend of herbs designed for optimal skin care health. It has a slightly oily feel when applied to the skin, even though there is no oil in the formula. Contains magnesium chloride that was mined from an ancient seabed. This fast acting mineral spray can also be used for menstrual cramping, restless legs, etc.

RECOMMENDED USE: Squeeze a small amount onto your fingers and massage into the skin. Inside the arms, behind the knees, tops of the thighs and bottoms of the feet are the areas that are most absorptive, but any areas of skin can be used. Allow cream to absorb; then more may be applied. Your body self-regulates, so you may apply as much as feels good to you; you cannot over-apply. This is a mineral salt cream; it may cause stinging if applied to open wounds. However, salt is added to substances to prevent microbial growth, so this is a secondary benefit of our cream.

Athletes Foot Cure **TOP SELLER**

Athlete's Foot Mask is packed with natural, anti-fungal botanicals, as well as tolnaftate. Unlike most athlete's foot treatments, which are creams or spray, this is in a mask form. A mask is a cream that is applied to the foot, then dries (in minutes) and adheres to the spaces between the toes, protecting and healing. The mask adheres to the skin comfortably all day -- under socks and shoes or sandals. It washes off easily and has a fresh, clean fragrance. Superior adhesion combined with powerful anti-fungals make this a superior athlete's foot cure.

Serra Peptase **TOP SELLER**

Serrapeptase – Dietary Supplement is a strong proteolytic enzyme. The late Hans Nieper, MD, was a German physician that was well known for his use and study of proteolytic enzymes in the treatment of arteriosclerosis. He called Serrapeptase the miracle enzyme after using ultrasound to measure its ability to effectively dissolve arterial plaque without harming healthy cells lining the arterial wall. One of the most significant features of Serrapeptase (*Helianthus tuberosus*) is that it does not harm any living cells or tissues in the human body; it only dissolves non-living tissue such as cysts, hard and soft arterial plaque, blood clots, etc. The primary purpose of Serrapeptase in a protocol for Lyme disease is to dissolve fibrin layers surrounding harmful microbes associated with Lyme disease such as *Borrelia*, *Babesia*, *Bartonella* and *Ehrlichia*. The fibrin layer covering these microbes causes them to be hidden from the immune system; once the fibrin is dissolved the immune system can more easily identify and eliminate the harmful microbes.

The Ultimate Monolaurin® is an internal defensive answer against bacterial and many viral infections. It offers a minimum of 95% monolaurin, with added monoCaprin, monoCaprylin and monoMyristin. For best results use Monolaurin along with Bio-Fibrin and IN-Focus.

Serving size;

1 blue scoop = 1 tsp = 3,000 mg Monolaurin. Monolaurin is very bitter and waxy, so is best to not chew it or take with hot liquids. Most people put it in their hands, often with other capsules they take because the monolaurin makes it easier to swallow them. Then they wash them down with water, etc.

Ultimate Bio-Fibrin **TOP SELLER**

Ultimate Bio-Fibrin is A Blend of Systemic Proteolytic Enzymes: Serrapeptase, Nattokinase, Bromelain, Papain, N-Acetyl Cysteine and Grapefruit Seed Extract.

What is a Proteolytic Enzyme?

An enzyme is usually simply described as something that will help dissolve foods for digestion and absorption. Most medical dictionaries will describe an enzyme as a catalyst produced by a living organism, usually a protein, that increases the rate at which chemical reactions occur. Bottom line: they help dissolve things.

Usage: 2 to 6 capsules a day is normal - depending on need and body weight (up to 2 month supply).

Caution: Check with your doctor before using Bio-Fibrin with any blood thinning drugs!

Strength in Vulnerability

A Holistic Look at Prostate Health

By Vas Avramidis

Frequent urination is an all-too-common problem for men as we age. If you are anything like me, you might consider it a victory to awaken only two times per night to void your bladder. It is easy to ignore this nightly nuisance as just that, an irritating part of getting old. However, this is not something to brush off as a side effect of aging. It may be a sign of a deeper problem.

For many men, health is something to think about only when it begins to fail. Yet the decline of male vitality often starts before the onset of significant symptoms. Disrupted hormone levels can lead to a host of complications as men age, leading to an enlarged prostate and other serious health problems. Prostate health, however, does not begin with the prostate; it starts with the hormones. An enlarged prostate may actually be a sign of a silent hormonal imbalance.

THE HORMONAL FOUNDATION OF MALE HEALTH

Testosterone is the cornerstone of male vitality, supporting muscle mass, bone density, libido, mood, and overall energy. As men age, testosterone levels begin to drop. Much of this decline is due to a rise in sex hormone-binding globulin (SHBG), a protein that binds to free testosterone, making it unavailable for use in the body. By midlife, levels of free testosterone begin to plummet.

To further compound the problem, a process known as aromatization, which converts testosterone to estradiol, also increases in midlife. In addition, stress and increased body fat all accelerate the conversion of testosterone to estradiol, leaving many men with high estrogen and low levels of available testosterone. The imbalance contributes to fatigue, mood changes, and reduced libido, as well as prostate enlargement and metabolic disorders such as insulin resistance and cardiovascular disease. Aging, environmental toxins, poor diet, and chronic stress all contribute to decreased testosterone production.

KIDNEYS, ADRENALS, & HORMONAL BALANCE

The kidneys are rarely the first organs considered for hormonal balance, yet they play a crucial role. The kidneys convert Vitamin D into a usable form, directly influencing testosterone production. Studies demonstrate that low vitamin D levels correlate with low testosterone and that men with declining kidney function often experience reduced hormone levels. Therefore, supporting kidney health is central to maintaining proper hormonal balance.

The adrenal glands, which sit atop the kidneys, are equally important. Chronic stress overworks the adrenals, raises cortisol, and suppresses testosterone—a typical pattern in modern men. Adaptogenic herbs help modulate this system, protecting the body from the effects of constant stress.

- **Ashwagandha (300–500 mg/day)** calms the stress response, lowers cortisol, and can indirectly boost testosterone and energy.
- **Holy basil (300–600 mg/day)** soothes the nervous system, reduces inflammation, and supports immune function.

In addition to these adaptogenic herbs, the kidneys benefit from gentle trophorestoratives such as **Stinging Nettle seed**, **Cordyceps**, and **Astragalus**, which restore function, protect against degeneration, and support the hormonal systems that depend on them.

THE PROSTATE & THE BALANCE OF ANDROGENS

Once we have begun to address the insufficiency of the kidneys and the adrenals, we can now address the prostate itself. The prostate is a walnut-sized gland that not only nourishes the sperm but also serves as a sensitive barometer of

ASHWAGANDHA

ASTRAGALUS

CORDYCEPS

hormonal balance. As men age, however, the prostate can become inflamed, developing **benign prostatic hyperplasia (BPH)**—a non-cancerous enlargement of the prostate that compresses the urethra and causes urinary symptoms such as weak flow, dribbling, or frequent nighttime urination. There is that culprit that frustrates us and keeps us up at night.

The root of BPH is the conversion of testosterone to dihydrotestosterone (DHT) by the enzyme 5-alpha-reductase. DHT is a potent androgen that stimulates prostate cell growth. Even as total testosterone declines with age, DHT levels within the prostate remain high, mainly due to the upregulation of this enzyme. Elevated estrogen, inflammation, and oxidative stress can all increase 5-alpha-reductase activity, making lifestyle, diet, and herbal intervention critical.

HERBAL ALLIES FOR THE PROSTATE

The good news is that several herbs have a long history of use for BPH. Modern medicine has also studied these herbs and determined that they are effective. These herbs regulate hormone metabolism, reduce inflammation, and ease urinary symptoms:

- **Stinging Nettle Root (120–600 mg twice daily or 2–4 mL/day tincture).** Nettle root is a cornerstone of male formulas. It binds SHBG, increasing free testosterone and inhibiting 5-alpha-reductase to lower DHT levels. It helps normalize the androgen–estrogen balance and supports urinary flow.
- **Saw Palmetto (160–320 mg/day standardized extract).** Saw palmetto blocks 5-alpha-reductase, reducing DHT formation. It may also help relax the smooth muscle of the prostate and bladder to ease urination.
- **Pumpkin Seeds or Oil (500–1000 mg/day or eaten raw).** Rich in zinc, pumpkin seeds nourish the prostate tissue and support testosterone synthesis. Zinc is also high in antioxidants, thus protecting the prostate.
- **African Plum.** An extract of African Plum reduces inflammation and may act as an alpha-blocker by relaxing prostate and bladder muscles, supporting improved urine flow.
- **Anti-inflammatory and supportive herbs, such as turmeric (curcumin), green tea, holy basil, ginger, and rosemary,** reduce oxidative stress and inflammatory cytokines that exacerbate prostate enlargement.
- Support these herbs with foundational nutrients that assist the endocrine system. **Zinc** and **magnesium** are essential to testosterone synthesis, and **selenium** protects the testes from oxidative stress. **Vitamin D** is necessary for testosterone production.

LIFESTYLE & BALANCE

Lifestyle choices significantly impact prostate and hormonal health. Regular strength training helps sustain testosterone and muscle mass. Adequate sleep allows hormone production and repair. A Mediterranean diet rich in vegetables,

fruits, legumes, whole grains, olive oil, and fish reduces inflammation and supports kidney and prostate health. Avoiding processed foods and irritants like caffeine and alcohol can ease urinary symptoms and reduce systemic stress.

Hydration is key. While men with BPH may need to limit fluids before bedtime, dehydration stresses the kidneys. Strike a balance that supports urinary function without straining the body.

STRENGTH & AGING

Men often approach health from a place of control, fighting through pain, ignoring warning signs, and preferring heroic measures over steady restoration. Yet healing frequently begins in the opposite direction: in humility, acknowledging weakness, and allowing God and others to help.

As we age, the same testosterone that once fueled our ambition and drive can no longer be our only measure of strength. The call of maturity is to turn that energy toward spiritual vitality: prayer, contemplation, and service. The Apostle Paul reminds us, “For when I am weak, then I am strong.” (2 Corinthians 12:10)

In this way, supporting the prostate and the body’s natural balance is not merely a matter of using herbs to optimize hormonal balance; it’s an invitation to recognize our limits and allow God to renew our strength from within. Aging should be a time of reflection, prayer, and the search for spiritual strength. It is not a time to grasp for fleeting physical prowess, but for a spiritual legacy that extends into eternity. The herbs that restore the kidneys, balance the adrenals, and calm the nerves remind us that healing is not about conquest but cooperation with the wisdom of the body and the grace of the Creator. In the end, strength and vulnerability are not opposites. They are the two sides of a man’s journey toward wholeness.

Multiple Mineral Ionic

Eidon's Multiple Minerals are a complement of all essential and trace minerals necessary for good health in a silica base. Eidon's formulation reflects the most current understanding for optimal balance in a mineral formula. The macro minerals, Calcium and Magnesium, are kept in a 1:1 ratio to correct the erroneous dietary trend of high Calcium and low Magnesium intake. The delicate combination of Zinc and Manganese are kept in a specific ratio so as not to imbalance each other. Higher and equal levels of Selenium and Chromium complement the Zinc and Manganese ratio. Boron is utilized with Silica and Sulfur in proportion to Calcium and Magnesium. Iron is included with careful attention to Zinc and Manganese. Iodine and Potassium put the finishing touches on the formula within the current acceptability guidelines for mineral balance. Eidon's combination of balanced minerals can serve as a stable foundation for mineral nutrient supplementation.

Fulvic Liquid Minerals 400X Concentrate

400x Super Concentrated Fulvic naturally carries essential macro, micro, and trace minerals and elements in their "cell-ready" forms delivered directly to the cells. A potent bi-directional super antioxidant. Fulvic molecules act like "mini-batteries" providing electrons to help charge cell membranes and support cell membrane dynamics for optimal cellular function. When cells and cell membranes are fully charged, nutrients are absorbed more easily into cells. Nutrients must be absorbed into cells to be used in the biochemical processes that support life. These processes only occur INSIDE the cells. Also, acidic waste products produced in normal biochemical processes can build-up when the cell membrane dynamics are not functioning well. This can significantly impair cellular function and health. Fulvic also provides electrons that help restore or optimize cellular energetics - especially in the mitochondria, the cell's powerhouse, so the mitochondria can produce the energy we need for life and vitality.

Pure Non-Scents Total Odor Control

PURIFY YOUR WORLD™ with PURE NON-SCENTS® (PNS) granular activated coconut charcoal - the industrial and home choice for eliminating odors - good, bad and ugly! You name it, remove: mothball odor, pet odors or perfume odors, cigarette odor, mildew, solvents, diaper pails, garbage cans, compost, dead animals, lab chemicals,... PURE NON-SCENTS® adsorbs them all. This is not the cheap recycled coal-based charcoal most often used in treating municipal waste water. PURE NON-SCENTS® is made from a blend of virgin coconut shell granular charcoals that are acid-washed for extra strength. PURE NON-SCENTS® can be sprinkled in garbage cans, litter boxes, in crawl spaces, pet runs, or on compost heaps. It can also be tied in SACHETS and hung just about anywhere there are offensive odors. The sachets work best if they are hung where there is air movement, but they can also be placed in refrigerators, closets, gym bags, diaper pails... Each jar of PURE NON-SCENTS® includes 5 SACHETS for you to fill as needed. Be creative and DON'T COVER UP ODORS, GET RID OF THEM! This product is child and pet friendly. If ingested, PNS is rated "Non-Toxic".

Bath Filter

Chlorine, a poisonous gas that is used for water treatment, can be absorbed through your skin during baths. The warm temperature of bath water opens up your pores, allowing chlorine to penetrate your skin. Because chlorine is an oxidant and is what bleach is made of, it can harm your skin and contribute to dryness and flaking. The steam you inhale in a hot bath also contains chlorine vapor that can be absorbed directly into your blood stream. The Santevia Bath Filter reduces chlorine up to 100%! No installation required. Simply hang over your bath tub faucet and let the water run over and through the Santevia Bath Filter. Once your tub is filled, swirl the Santevia Bath Filter in the full bath for best results. Perfect for babies, young children, those with sensitive skin, and anyone who doesn't want to bathe in chlorinated water. Care: Can be used with bath soaps and oils in tub. Rinse filter after use. Hang to dry. Filtration Life: 4-6 months / 200 baths

Baby NasaKleen **TOP SELLER**

Babies need a clear nasal cavity so they can breathe, eat and sleep. Sneezing is a helpful event because it helps the baby clear out their nasal passages. However, when excessive mucus builds up and dries, the nose needs cleaning. Baby NasaKleen® cleans an infant's nose by ridding it of excess mucus. Baby NasaKleen® consists of a silicone tip, a plastic chamber with a hygiene filter and a tube connector. The tube is connected to a mouthpiece. By placing the nozzle slightly inside the baby's nostril and gently applying suction through the mouthpiece, the mucus collects in the transparent chamber. A hygiene filter prevents mucus from leaving the chamber. Add a few drops of saline into the nostrils before aspirating if the mucus in the baby's nose is particularly dry or sticky. Repeat one to four times per day, as needed. We recommend that the nose be cleaned upon awakening, before bed and prior to eating.

DID YOU KNOW ?

Magnesium is an essential mineral that plays a role in 600 biochemical reactions in the body?

Prodovite Vitality

Prodovite provides a daily single serving of a powerful combination of multivitamins, essential minerals, phytonutrients, botanicals, adaptogens using a liquid multinutrient system powered by Prodosome technology—a proprietary nutrient delivery method for near-instant absorption at the cellular level. This means your body doesn't have to "wait and see" if it will benefit but rather it feels the impact quickly. Clinical studies have shown Prodovite to help improve hemoglobin function and cellular oxygenation within minutes of consumption. Each dose is packed with over 100 nutrients: bioavailable vitamins, minerals, antioxidants, enzymes, phytonutrients, and plant-based compounds—all synergistically blended to work with your body, not against it. This isn't just a supplement—it's a cellular awakening. Have you ever taken a multivitamin and felt nothing? Prodovite could change the game by solving the two of the biggest problems in supplementation: absorption and utilization. Prodovite is fast-acting, backed by clinical research, designed for maximum absorption, no synthetic binders or fillers, made to support energy, focus, digestion, and immune function, so whether you're dealing with exhaustion, brain fog, or just want to optimize your health on a cellular level, Prodovite may provide powerful, real results you can feel.

One "n" Only Men's Formula **TOP SELLER**

One 'n' Only formulas are designed to bridge the gap between what we need and what we get from the modern diet. They do this in at least four ways. *They provide ideal potencies, forms, and balances of all vitamins and minerals, which activate the enzyme systems required for cellular function. *They provide antioxidants to protect cells against damage and death. *They provide from 12 to 50 times more whole food value than most other one daily (23,000mg in the Men's and Women's formulas). That means more energy, which means greater cellular efficiency. *They provide the equivalent of 4000mg of raw Superior Herbs each day, which promotes cellular efficiency in many ways. It supports cellular function, builds energy, promotes immunity, and provides whole food nutrition. Contains ingredients specifically for male needs. MTHFR Compatible.

Turmeric Plus

Turmeric Plus includes two trademark and patented ingredients for enhanced absorption and increased bioavailability. Turmeric, a flavoring spice rich in Curcumin, has liver protective, detoxifying and free radical scavenging properties. BioPerine® which comes from the black pepper fruit, a common household spice, has been used extensively as a medicine for centuries. The delicate pepper berries are harvested just prior to ripening and then sun dried to assure optimum maturity and quality. The extract of piperine, called BioPerine® in the patented form, has been clinically tested in the United States. BioPerine® significantly enhances the bioavailability of various supplement nutrients through increased absorption. An excellent Turmeric product!

Curcumin T4 is a synergistic blend of botanicals that zeroes in on 4 different pain targets: the joints, the muscles, stress and the brain. Curcumin T4 is a thoughtful approach which recognizes the unique individuality of the sensations of pain and dismisses the single-action approach of many common pain relievers. Adaptogenic support to balance the brain with the body, and a scientifically validated and patented form of turmeric, Curcumin T4 goes beyond merely dulling the senses or targeting a single pathway. Curcumin T4 works to restore balance between the body and the mind, and supports those particularly vulnerable areas – the joints and the muscles.

Neprinol AFD

Cleanse the blood. Uses include: Arthritis, inflammation, pain, blood cleansing, blood pressure, fibrosis and more. Neprinol has been specially formulated to support healthy circulatory and immune function.* Systemic enzymes are similar to digestive enzymes, but primarily target the bloodstream rather than the gastrointestinal tract. These enzymes support healthy levels of Endogenous Blood Particles or EBPs.* EBPs can be pro-inflammatory proteins that normally accumulate in the blood.* Systemic enzymes essentially purify the blood of these EBPs, supporting healthy cardiovascular and liver function, as well as maintaining a healthy inflammatory response. A great product.

Directions: Take Neprinol with 8 oz of water on an empty stomach. Larger amounts may be divided into 2 or 3 servings per day.

Maintenance: 2-3 capsules per day.

Increased Support: 6 capsules per day.

Therapeutic: 9 capsules per day.

BF&C Herbs (Complete Tissue & Bone)

A synergistic combination of herbs for bones, flesh & cartilage. Bones play a major role in our body. They provide structure, protect organs & anchor muscles. Skin care along with healthy lifestyle choices can help slow the natural aging process. Dr. Christopher's time-tested BF&C Cut supports bones, skin, tissue, hair, nails, teeth & gums.

Directions; Varies according to individual need. Bulk Formulas can be prepared for Extracts, Capsules, Decoctions, Balsams, Plasters, Fomentations & many other uses. We encourage you to research information on the formula & preparation that works best for you. While we cannot cover every herbal preparation below is a few common methods. *Infusion or Tea - Use 1 teaspoon of cut herb per cup of distilled water. Bring water to a boil, remove from the heat source, then add the applicable amount of herb to the water. Cover & allow to steep for at least 20 minutes (longer for stronger tea). Strain the herb & let stand until cool enough to drink. *Decoction - Cover roots, barks & other hard herbal material with water, an ounce of the herb to a pint and a half of water. Bring to a boil & gently simmer for about 20-30 minutes. Drain off the liquid while hot & press the herbs to make sure that the decoction is fully extracted. Decoctions are strong. Take as directed. *Fomentation - Soak a piece of gauze, Turkish towel or similar porous material in the infusion or decoction needed. Sometimes hot Apple Cider Vinegar is used. Cool until the material is just bearable. Cover with plastic or oil cloth to prevent the liquid from soaking bed clothes, etc. Keep damp & change periodically.

Ingredients; White Oak Bark, Comfrey Root, Marshmallow Root, Mullein Leaf, Black Walnut Leaf, Gravel Root, Wormwood Herb, Lobelia Herb & Skullcap Herb.

*This product contains comfrey and therefore FDA recommends for external use only. Many have and do use this product internally. Use at your own risk. Do not use if pregnant or nursing.

Complete Tissue Soak

Dr. Christopher, a naturopath and herbalist of the 19th century, combined these herbs to make a soak for one of his clients. Since then this well-loved combination of herbs has been used to help support healthy bones, ligaments, tendons, muscles, and other connective tissues. Directions: Put 1 cup of the dried herbs in 2 quarts of cold water. Heat till boiling, reduce heat and simmer 20 minutes. Steep (let it sit) for 20-60 minutes. Then strain through a sieve or cloth. Add hot or cold water to bring temperature to pleasantly hot for soaking. If there is no infection in the area, the soak can be reused a number of times. Keep refrigerated between uses, reheat to use and do not keep more than 2 days. Alternate hot tea soak with a shorter cold water soak for best results. Do not use internally.

Diatomaceous Earth **TOP SELLER**

Food grade Diatomaceous Earth (DE) is a bio-available source of silica and has historically been used for parasite and detox cleanse as well as for silica supplementation. Food Grade DE contains a unique combination of amino acids, mineral silica and vegetal silica, as well as a coenzyme. When combined, they support both the surface epidermal cells and the deeper layer or dermis skin cells. DE can also help to create a healthier Colon and promotes regularity. This is especially important as we get older. A clean healthy colon helps keep away polyps, cancers, and ulcers. Suggested use: Often individuals start with 1 to 2 teaspoons in 8 oz. of water or juice once a day while others gradually increase up to 1 or 2 tablespoons in 16 ounces of water. For maximum silica absorption add 1/4 to 1 teaspoon of organic apple cider vinegar per 8 ounces of water. For a Parasite Cleanse use; 1.5 teaspoon with 8 oz. of water for 7 days then 1.5 tablespoon with 16 oz. of water for 38 days. (A 45 day cleanse) (9oz. needed for a 45 day cleanse).

Brighter Mornings

Ladies, did you ever wake up first thing in the morning with a wave of nausea? When this occurs during pregnancy it is often referred to as "Morning Sickness". Many experience this for the first three months of pregnancy and some experience it for the entire duration! There are others going through menopause and hormonal changes that also may experience waves of nausea. Still others struggle with nausea for seemingly little or no good reason. Men may sometimes feel a bit nauseated, too. To support your body's attempts at calming the nausea, we developed Brighter Mornings, an elixir of organic herbs: Catnip, Chamomile, Fennel Seed, Fresh & dried Ginger, along with Peppermint & Spearmint oil and Organic Apple Cider vinegar.

Managing Morning Sickness

By Kristen Smith, Herbalist & Aromatherapist

Few things bring as much emotion to a new family as finding out a new baby is coming. You might welcome this news with surprise, joy, or even a little intimidation. As a mom of nine, I've felt all of these things and others with my different pregnancies! But once the news settles in, you often have to work with another, less welcomed, feeling: pregnancy nausea.

MORE THAN JUST THE MORNING: UNDERSTANDING NVP & HG

Often called morning sickness, the medical term for this common pregnancy condition is nausea and vomiting of pregnancy, or NVP. If you have NVP, you can experience symptoms ranging from mild queasiness to severe food aversions and regular vomiting. It can last all day, hit at certain times, or sporadically set in due to various triggers. Generally, NVP is worse in the first trimester and peaks around 9 weeks gestation. However, some women deal with nausea and/or vomiting for most, and sometimes all, of their pregnancies.

While doctors and researchers aren't exactly sure why women tend to feel nauseated during pregnancy, some evidence suggests that it may have to do with elevated hormones and changes to how your body manages blood sugar levels. There are other theories, too. Nutrient deficiencies, changes to your digestion, and certain preexisting conditions have all been studied by researchers as potential risk factors.

As unpleasant as NVP is, it is considered a normal part of early pregnancy. You may also be able to find relief with some remedies and lifestyle approaches I'll share in this article.

However, if you experience nonstop nausea and vomiting, you may have a more serious condition called hyperemesis gravidarum, or HG. HG can leave you bedridden and lead to dehydration, malnutrition, and weight loss. If you're concerned you may have HG or show symptoms of it, talk with your care provider. You can also try the options in this article, but don't hesitate to get additional help if you don't see improvements.

NATURAL REMEDIES FOR PREGNANCY TUMMY TROUBLES

Just as pregnancy nausea can be different from woman to woman, and even pregnancy to pregnancy, there isn't a single natural remedy that helps all women feel better. In fact, you might find that a certain food or remedy helped you tremendously in one pregnancy, only to find that very thing is a nausea trigger for you in a later pregnancy! So don't feel discouraged if you have to try multiple things to find relief.

All of these options are generally safe for pregnant women. If you have a preexisting condition, complicated pregnancy, or any other concern, talk to your care provider and an experienced herbalist as you choose your remedies.

GENTLE PRENATAL VITAMINS

While prenatal vitamins don't ease nausea by themselves, they can sometimes trigger it. This can be more common with inexpensive vitamins that contain synthetic nutrients and constipating forms of iron.

GINGER

ESSENTIAL OILS

CHAMOMILE

Food-based prenatal vitamins can be easier for your body to process. This means they may help you feel less queasy. However, I've worked with women who found certain food-based vitamin formulas triggered nausea, while others didn't. So you may need to do a little trial and error to find the best prenatal for you. NewLight Health carries many excellent prenatal vitamin options for you to consider.

SOUR FLAVORS

Many women find that sour tastes help them get food down or calm their rumbling tummy. Slowly sipping some lemon juice or raw apple cider vinegar in water is a simple way to get that sour flavor and stay hydrated at the same time. Grapefruit, either as a whole fruit or as a diluted fruit juice, may also help. Natural sour candies do add excess sugar to your diet, but they may be an option to consider if other things don't help.

GINGER

Ginger's effects on nausea are well-established both in traditional wisdom and scientific research. It's also one of the most studied herbs for use in pregnancy. You can add fresh ginger root or dry ginger powder to your cooking, make a simple ginger tea, or try ginger capsules. Too much dry ginger can trigger nausea, so go slowly if you try capsules. Some women also find that nibbling on naturally candied ginger settles their stomach.

ESSENTIAL OILS

While certain scents can trigger nausea in pregnancy, others might help calm it. Briefly inhaling essential oils can ease nausea when it's getting the best of you. Peppermint, ginger, and citrus oils like sweet orange, lemon, and grapefruit are classic scents that can be helpful if you feel sick. Simply place one drop of the essential oil on a tissue and take deep breaths holding the tissue near, but not over, your nose. In a pinch, you can even take a few deep breaths from an open bottle.

Please note that it is never safe to ingest essential oils during pregnancy, unless they are used as flavoring agents in food products.

CHAMOMILE

Chamomile's apple-like flavor and gentle herbal actions make it another option to consider for NVP. A mild cup of chamomile tea, sipped slowly, may improve digestion, ease nausea, and help you feel more rested.

If chamomile doesn't give you relief, you can try peppermint tea. Peppermint can trigger or worsen heartburn, though, so I generally recommend trying chamomile first.

HYDRATION & ELECTROLYTES

Electrolytes are minerals that help your body's electrical impulses travel and respond the way they're supposed to. If you're dehydrated and low on electrolytes, you might find that your nausea is worse. You can mix powdered electrolyte mixes into plain water or sip coconut water to increase your hydration and electrolyte stores.

FIZZY DRINKS

There's something about carbonated drinks that can calm upset tummies! Rather than sipping soda, though, you can try other natural drinks that are lower in sugar but still offer fizz. Seltzer water, natural ginger ale, or bubbly fermented drinks like kombucha or water kefir can settle your stomach. If you opt for fermented drinks, be sure you only drink small amounts if your body isn't used to them.

BLOOD SUGAR-REGULATING FOODS

I saved this "remedy" for last since foods can be the hardest thing to manage when you already don't feel well. But not eating because you feel sick can actually make the nausea last longer. You might find that eating smaller meals throughout the day is easier than eating 3 large meals. Bland carbohydrate foods like toast and baked potatoes can settle your stomach, while mild proteins like cheese or cold chicken keep you full. Avoid processed and sugary foods that make your blood sugar quickly rise and fall, as this can make you feel more queasy.

IT WILL BE WORTH IT!

As tough as pregnancy can be, it is always worth it. Though the queasy days can feel like they'll never end, they do. You'll soon hold a precious new life, and all the sickness of today will be a distant memory. Imagine what it will be like to hold your brand new baby on the hard days, and ask God to get you through. He sees you and is faithful to help you in all things!

MegaSporeBiotic "4 Billion" **TOP SELLER**

A great probiotic for those suffering from leaky gut and other digestive issues. MegaSporeBiotic is a probiotic blend of 5 Bacillus spores that have been clinically shown to maintain healthy gut barrier function and overall immunity. The bi-phasic life cycle of the Bacillus spores allows them to remain dormant in harsh environments until they reach more favorable environments like the human gastrointestinal tract. Once inside the large intestine, these dormant spores can change into their active, vegetative forms and begin colonizing in the gut. This unique probiotic blend aims to RECONDITION the gut instead of reseeding with probiotic strains that cannot survive digestion or colonize the gut. MegaSporeBiotic has quickly become a household favorite among health practitioners and consumers alike.

Dosing Instructions

Start with 1/2 capsule or 1 full capsule with food and slowly increase to 2 capsules per day using the following protocol.

If 1 capsule every other day is too strong, try starting with 1/2 capsules or even 1/4 capsule in some cases. Possible symptoms may include abdominal cramping, loose stools, and changes in bowel movements. Though these symptoms may be uncomfortable, they are a sign that the product is working! Symptoms should resolve within 2-3 days.

Floraphage Prebiotic "Probiotic Multiplier"

Multiply and Maximize the Strength of Any Probiotic
Floraphage is the world's first prebiotic "PHAGE," capable of destroying harmful bacteria in the digestive tract.* Floraphage has selective antimicrobial properties that enable it to dismantle specific bacteria within the gut.* When these bad bacteria are destroyed, nutrients are released that act as a high-quality prebiotic food for supplemented probiotics and our own indigenous bacteria.* Based on lab testing, Floraphage increased the strength of supplemented probiotics by an average factor of 24x compared to control.* Floraphage supports normal digestive and immune health and turns any probiotic into a super-biotic.* Floraphage was designed to support the proliferation of beneficial bacteria throughout the gastrointestinal tract in order to promote optimal digestive and immune health. Floraphage was tested in conjunction with four popular probiotic supplements to determine its ability to increase the potency or growth of each respective product. Suggested Use: Take 1-2 capsules daily with 8 oz. of water or as directed by your healthcare practitioner. Floraphage may also be taken with your favorite probiotic formula like Syntol AMD

Mega Prebiotic

MegaPreBiotic™ is a cutting-edge Precision Prebiotic™ supplement made up of clinically-tested, non-digestible oligosaccharides that can increase microbial diversity and selectively feed beneficial, keystone bacteria like Akkermansia muciniphila, Faecalibacterium prausnitzii, and Bifidobacteria. Prebiotics are non-digestible fibers that feed the bacteria living in your gut. However, many prebiotics on the market can feed both harmful and beneficial gut bacteria, which can exacerbate digestive issues. Keystone bacteria like bacterium prausnitzii, and Bifidobacteria are very important for human health, but their populations can be easily diminished by antibiotics, stress, diet, glyphosate, and other environmental toxins. Start with ½ scoop daily for one week, then increase to 1 scoop daily with or without food, or as directed by your healthcare practitioner. Mix into 16 oz of cold water or liquid of your choice. Also available in capsules!

Inulin Prebiotic Powder "Organic"

Inulin, a fructooligosaccharide (FOS), is a soluble prebiotic fiber that is resistant to digestion and reaches the large intestine essentially intact. Intestinal probiotic bacteria consume Inulin and in turn, produce the short-chain fatty acids that nourish the cells lining the colon.* Inulin thus helps to maintain intestinal health and function. Inulin has a pleasant flavor that adds a mild sweetness to foods and drinks, but has a very low glycemic index and will not negatively impact serum glucose levels.

Peas are well known for being a source of highly bioavailable protein. Additionally, peas are not considered one of the major dietary allergens. Collectively, this makes pea protein an ideal source of post-workout nutrition for athletes who may have difficulty supplementing with other types of protein. NOW® Sports Organic Pea Protein is a non-GMO vegetable protein isolate that has 15 grams of easily-digested protein. Each 2 scoop (20 g) serving typically has over 2,700 mg of branched chain amino acids, and over 1,300 mg of L-Arginine.

Sinus Infection

By Rosalie Gehman

Sinuses are an interesting part of our body. They are the hollow spaces in the skull that produce mucus and help get rid of germs in the nasal passages and nose. Sinuses also help warm the air you breathe and keep your airways moisturized. Sinus Infection happens when the sinuses become inflamed and filled with fluid. This infection often starts as a common cold or flu, or even allergies and may last 7–10 days.

When sinuses are congested for a period of time, a bacterial infection may take hold and flare into a full-blown sinus infection that requires stronger treatment to clear. Symptoms may include pressure around your eyes, nose or forehead, at times even causing tooth pain. You may have an irritating cough caused by mucus drainage in the throat, a headache, fatigue and fever. You may have bad breath or bad taste in the mouth. Often with rest and home remedies sinus infections clear up in about 10 days. If they persist longer, you may need to take stronger measures. At times a low-grade sinus infection does not have pronounced symptoms, just a general unwell feeling and extra tiredness. This also needs to be addressed.

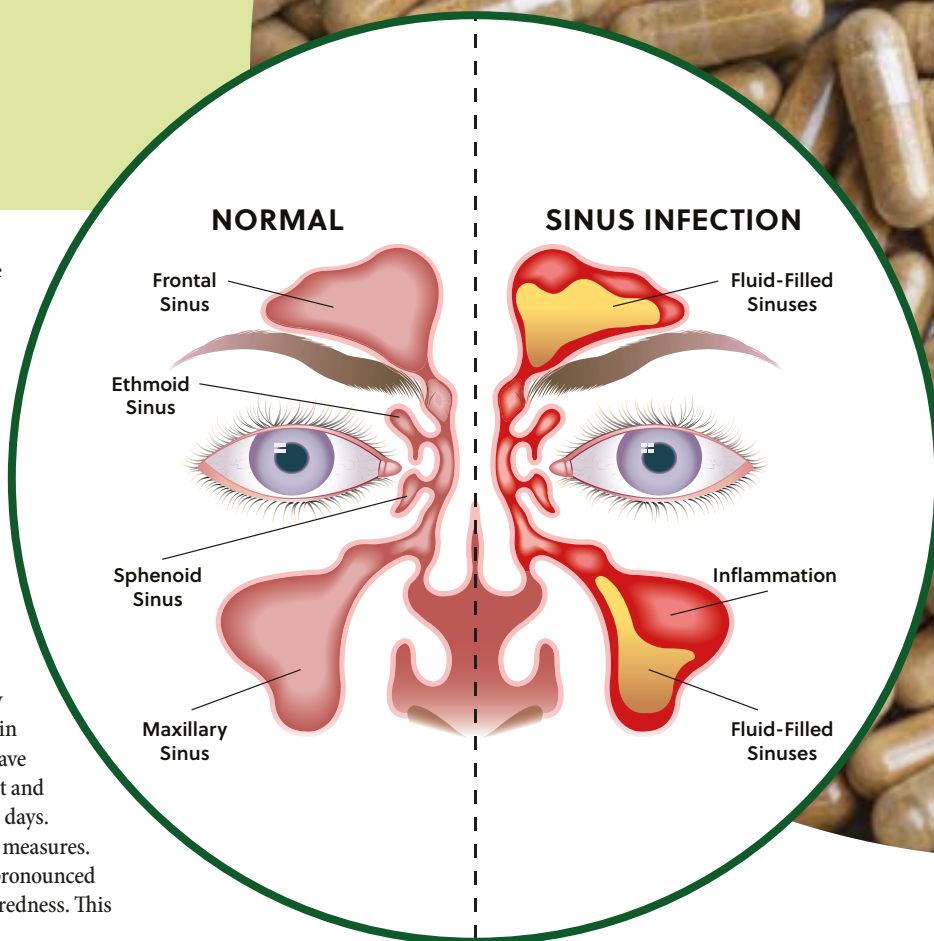

Acid reflux problems can also cause a sinus infection. As acid gets into the throat and nasal passages it may cause swelling and keep sinuses from draining well. It causes more mucus production which makes it difficult for sinuses to drain properly. Constant acid reflux can cause nasal congestion which may block sinuses and may cause infection to start.

CARE TIPS TO INCLUDE

Avoid dairy and wheat as they tend to cause mucus. Spicy foods such as horseradish and hot pepper can help to relieve nasal congestion. Support lymphatic gentle rebounding or rub lymph with castor oil. Make sure to keep the colon moving and support gut health. Often when the gut is healed the sinuses heal too.

HELPFUL TIPS

- Stay hydrated
- Vitamin C
- Drink herbal teas to boost immune system
- Nasal flush, may add 1 drop Iodine
- Breathe Easy Oil to diffuse or use vaporizer to keep air moist
- Quercitin
- Resp-eze salve

IMPORTANT

C-Herb Salve

For the removal of moles, warts, or skin tag, you may find that the C-Herb works very well. Some discolored spots may not be affected. C-Herb will not do anything to healthy tissues, so if it doesn't work as described, you haven't hurt anything by applying it. We suggest that you apply a small amount of Herbal Skin Salve, to the area you plan to use C-Herb on, for at least 3 days prior to using C-Herb. This will prepare the tissues and reduce the chance of scarring. Ingredients: Water, fiber, black walnut, burdock, white oak bark and mineral salts and proprietary herbs. Contains 1 gram (note the bottle is only 1/8 of the way full and not completely full. The color is light brown due to an ingredient being harvested in a different season.)

ScalpClenz Regenerative Hair & Scalp Oil

ScalpClenz Rubbing Oil is a powerful way to optimize the health of the scalp, including the all important hair follicles and sebaceous glands. Powered by oil of black seed, cold pressed sesame oil, and oils of nettles along with oil of wild oregano, rosemary, sage, fennel, and lavender, it is potent and invigorating. What a powerful combination it is, ideal for supporting the health of the hair shafts, while stimulating the growth of new hair.

It is also ideal for dry and troubled hair and scalp. Rubbing oil can be applied by the drop to a selected area or to the entire scalp and combed through the hair. When applied liberally, it is desirable and more beneficial to leave it on overnight. Cover with a shower cap or towel to keep your pillow clean. Shampoo in the morning with ScalpClenz shampoo and use the conditioner for further hair and scalp care. Let some of the conditioner remain in the hair as it helps with balding and scalp issues.

Calming Formula

Calming Formula combines L-Theanine, 5-HTP and Melatonin in an all-natural formula designed to support calmness and healthy sleep. L-Theanine is an amino acid that is found in tea leaves; it promotes relaxation and facilitates sleep by contributing to a number of changes in the brain. L-Theanine elevates levels of GABA, as well as serotonin and dopamine. 5-HTP supports the production of serotonin, an important substance for healthy nerve and brain function and the normal regulation of mood and normal sleep patterns. These chemicals are known as neurotransmitters, and they work in the brain to regulate emotions, mood, and sleep; increasing levels of these calming brain chemicals promotes relaxation and can help with sleep. Melatonin acts as a natural aid for healthy sleep regulation and the promotion of normal sleep cycles. Easy to take instant dissolve tables.

RLR Laundry Treatment

RLR Laundry Treatment preps your diapers overnight! When do I need RLR Laundry Treatment?

- Prep Brand New Diapers prior to first use.
- Smelly Diapers: Sometimes soaps and ammonia build up in diapers and cause them to be smelly. RLR Laundry Treatment can fix this.
- Diaper Rash: If diapers are not properly washed, bacteria can build up in the fabric and cause rashes. Remove these bacteria by soaking the diapers in RLR Laundry Treatment overnight.

See section "Laundry & Cleaning Soaps" for more laundry soaps.

Oxygen Whitener **TOP SELLER**

Does hard water leave your whites dingy? Do you need a little something extra to make your whites pop?! Oxygen Whitener uses sodium percarbonate and other earth derived ingredients to aid in breaking down the hard water minerals to bring back your whites! It is color safe, but it is recommended you test a small spot to ensure fabric compatibility. Ways you can use the Whitener: Use it alone as a long soak. Add it to a carpet machine. Add it to your regular wash as a booster. Sprinkle in your toilets, let it sit and then give it a scrub! Our simple and safe formula can be used in high efficiency machines that have a soak cycle, in addition to regular washing machines – hot water is best. No ammonia. No fragrance oils. No bleach.

Wool Dryer Balls

Replace the need for toxic fabric softeners with Molly's Suds 100% hand felted Wool Dryer Balls, which last up to 1,000 loads, or three years, in the dryer, and reduce drying time by 15-30%.

Sourced from humanely sheared sheep, our Wool Dryer Balls are compostable and antimicrobial, naturally soften fabrics, and are great for all laundry, including towels, comforters, clothing, baby laundry, delicates and cloth diapers. Because the wool does not coat the fibers of fabrics with toxins like conventional fabric softeners do, it does not help to prevent static cling; however, try one of our handy tips below to combat the static. Safe for all dryers. Tips to remove static cling:

- Add 1/2 cup of distilled white vinegar to your rinse cycle, in place of fabric softener in the cup
- Add 2-3 extra large safety pins to old socks and keep them in the dryer – the metal helps break static bonds
- After about 3-5 minutes of dryer time, pull out fleece, sweat pants, and workout apparel to air dry, while continuing to dry the fabrics that do not create static. Almost 90% of the time, static is caused by fleece and other synthetic fibers, like rayon, microfiber, fleece, polyester and "blends".

Contains 3 dryer balls per pack.

Test Kits

Food Inflammation Test Kit

The FIT test is a patented food inflammation test which measures the whole immune system to find out which foods, colorings or additives are causing inflammation. Inflammation has a real impact on our health and can cause many symptoms. This test also offers the Gut Barrier Panel which measures gut markers that give insight into your immune health and see if you have leaky gut. The testing is a simple, easy finger stick test which you can do from the comfort of your own home. After the sample has been sent and analyzed at KBMO CLIA Certified Lab. You will be given a color-coded report to identify the foods, colorings, and additives which are causing inflammation which can then be discussed with the provider to go over the next steps. The average turnaround time is 7-10 business days after the lab receives the results. The test for the 176 and 132 foods includes the Gut Barrier Panel and a personalized meal plan that is put together by the nutritionist at KBMO Diagnostics. Please note: if you order your kit by mail include the name and birthdate of the person who the kit is for. Test can be done on children down to 1 yr. old. See chart on the following page for a list of foods that are tested in each test.

DNA Test Kit

Your DNA can reveal your body's precise nutritional requirements. And we can turn these requirements into your own precise nutritional formula called Ûtrition, Made just for you! This test requires you to provide a sample by simply swabbing the inside of your cheeks. The lab then conducts sophisticated tests to determine if certain genes have SNPs. The SNPs NücleoGenex tests for can tell you how well your body performs key functions that can affect your health and wellness long term. NOTE: This is not a diagnostic test and it will not tell your hormone or blood sugar levels. This DNA test includes testing for 18 different SNPs including the MTHFR gene mutation. Within 3 to 4 weeks of doing the swab test and mailing it to the lab (mailing envelope included in the test kit) you will receive the following DNA reports; • Healthy Aging Report • Weight Management Report • Skincare Report • Sports & Fitness Report. Once you receive your reports, you can contact us to discuss your results and you will also then be able to order your new Customized Ûtrition, a supplement that is formulated specifically for you based off your DNA report! We can place your customized Ûtrition supplement on a monthly auto ship for you ensuring you never run out. Please note: if you order your kit by mail include the name and birthdate of the person who the kit is for. If you have questions about this test or the Ûtrition supplement please call NewLight Health 717-692-3500 and dial extension 4 to speak with one of our health coach's. This test is non-refundable.

VITAMIN B-6 is an essential nutrient, required for the metabolism of lipids, carbohydrates, and proteins. It facilitates the conversion of amino acids from one to another as needed, and is necessary for normal synthesis of hemoglobin, as well as for the normal function and growth of red blood cells. VITAMIN B-6 promotes a healthy immune system and helps recycle homocysteine back to the amino acid methionine, thus preventing an unwanted build-up of homocysteine. It is also needed for the synthesis of neurotransmitters and for converting essential fatty acids into prostaglandins (chemical messengers).*

This more potent Coenzymated B-6 is in its active form; ready to go to work immediately. Pyridoxal-5'-Phosphate (PLP or P-5'-P) is the main metabolically active coenzyme form of vitamin B-6. It is primarily in the liver that P-5'-P is synthesized from vitamin B-6, with the help of enzymes that require B-2, zinc, and magnesium for their activity. P-5'-P activates over 100 enzymes, many of which are involved in the conversion of amino acids into the neurotransmitters dopamine, norepinephrine, and serotonin. Niacinamide B3

Niacinamide (Vitamin B-3) is a form of Niacin, a water soluble B-Vitamin. It is a derivative of Niacin that does not cause the "flush" normally associated with taking high doses of Niacin. Niacinamide is readily converted into the bioactive forms of Niacin, NAD⁺, NADH, NADP, and NADPH, which are vital cofactors in cellular energy production and are critical for the maintenance of DNA stability.* Niacinamide and Niacin are two different forms of Vitamin B-3. Niacinamide does not cause a Niacin flush.

Instant Energy B-12 2,000mcg

Vitamin B-12 (cyanocobalamin) is a water soluble vitamin necessary for the maintenance of a healthy nervous system and for the production of energy from fats and proteins.* Vitamin B-12 is also essential for the synthesis of DNA during cell division and therefore is especially important for rapidly multiplying cells, such as blood cells.* In addition, adequate intake of vitamin B-12, along with folic acid and vitamin B-6, is critical for the conversion of homocysteine to methionine, thereby supporting a healthy cardiovascular system.* While B-12 is stored in the liver, dietary sources are of animal origin only (meat and dairy). Therefore, supplementation with B-12 may be especially important for strict vegetarians. These convenient packets are perfect for purse, pocket and while traveling!

Flush Free Niacin

Niacin (Vitamin B-3) is an essential B-vitamin necessary for good health. Many Niacin supplements cause a temporary Niacin flush or tingling red rash on the skin when taken in large doses. This flush-free Niacin is formulated to avoid such reactions. Inositol Hexanicotinate is a stable, non-flushing source of Niacin. This superior source, and lower potency, of Niacin works to reduce the problems associated with mega doses of Niacin supplements.

Lypo-Spheric Vitamin C **TOP SELLER**

Why LivOn's Lypo-Spheric™ Vitamin C? Most ordinary forms of oral Vitamin C - tablets, capsules, powders, liquids and even the Vitamin C from your diet - are not processed and absorbed efficiently by your body. As a result, much of this Vitamin C is never transferred into your bloodstream and even less of it makes it into your cells where it's needed most. In fact, when you take 1,000mg or more of regular oral Vitamin C, more than half of it is digested and passed as waste by your body. Until now... LivOnLabs' patented Lypo-Spheric™ Vitamin C encapsulates the C molecules in liposomes made from Essential Phospholipids, which protect the C from destruction by your digestive juices. Within minutes of taking Lypo-Spheric™ Vitamin C, liposomes filled with Vitamin C are transported directly into the bloodstream, and into the cells.

Trim Healthy Mama Plan "Book"

Forget the Fad Diets, Join the Food Freedom Movement. Becoming trim and healthy doesn't have to be difficult or painstaking anymore. After trying almost every fad diet out there, Serene Allison and Pearl Barrett, creators of the Trim Healthy Mama movement, took matters into their own hands. Through trial and error and much research, they created the Trim Healthy Mama Plan: Keep It Simple. Keep It Sane. Based on the authors' successful self-published book, this simplified, improved, practical plan shows readers a unique way to lose weight and get healthy by eliminating sugar, and still eating hearty, delicious food.

LeptiTrim6 Daytime Capsules **TOP SELLER**

This proprietary formula, with leptin from colostrum, allows you to overcome the five underlying factors that prevent you from obtaining long-term, successful inch loss, by:

- Filling the communication gap between your stomach and the hypothalamus (the overeating mechanism) which puts you in control of how much you eat.
- Cleansing the cravings for sweets. It isn't wrong to want some sweets, but most people find they aren't in control and overindulge. This product will help limit the amount of bad carbohydrates.
- Balancing the body's thermostat (the thyroid) for a better, natural thermogenic burn, but without stimulants. The best energy source is FAT and by getting your thermostat working properly you can experience much more energy and lose inches.
- Increasing your lean muscle mass which is a large part of your fat burning engine, allowing you to burn more calories.
- Balancing body chemistry helps to overcome insulin resistant weight gain and has a positive impact on your adrenal functionality as well as blood pressure.

MCT Oil

Medium-chain triglycerides (MCTs) are fats that are naturally found in coconut and palm kernel oils. They're more easily and rapidly digested than other types of fats. MCTs are readily absorbed from the GI tract and are metabolized very quickly by the liver, where they are reported to encourage the use of fat for energy rather than for storage. Numerous studies suggest that substituting MCT oil for other fats in a healthy diet may therefore help to support healthy weight and body composition.

Candida Cleanse Kit

Candida is a type of yeast that naturally exists in the human body, particularly in the gut. Under normal circumstances, it coexists with other microorganisms without causing any problems. However, factors such as a poor diet, stress, eating too quickly, not properly chewing your food, drinking icy drinks while eating, antibiotics, and illness can lead to an overgrowth of candida. Treatment for candida can vary from person to person and circumstance to circumstance. The Candida Cleanse Kit (Candikill, SBC, and GI Complete) a 3 phase, 1-4 months protocol paired with some diet watchfulness for an all around approach to treating Candida overgrowth may be helpful. Candikill, is formulated to target Candida albicans and other fungal infections. SBC supplies 5 Billion CFU of Saccharomyces Boulardii and 2 Billion CFU of Bifidobacterium lactis (BI-04), GI Complete has been designed to support gut health, soothe the digestive tract lining, promote regularity, microbial balance and support proper immune function. This cleanse should not be used during pregnancy or nursing.

Nipple Butter "Organic"

Now 100% organic! Soothing Organic Nipple Butter is buttery and botanical-rich, lanolin-free and non-sticky. It moisturizes dry skin, and brings your nipples back to their happy place. And since it just might end up in baby's mouth, it's Non-GMO Project Verified. So there's no need to wash it off before nursing! A QUICK HOW-TO: Apply after each feeding or as needed — and feel free to slather liberally on flanges for a more comfortable pumping experience. Other places to slather it: on lips, cheeks, heels, cuticles and elbows.

Herbal Skin Salve

A salve everyone should have in their first aid kit. This is one of the first products produced at Taylor Made. I originally created it for my daughter who had diaper rash really bad and didn't go away. We've found it useful for more than diaper rashes like a burn, bug bite, abrasion, scratch, skin irritations, open surgical wound, stretch marks, or skin, or diaper rash. When other products don't work, try the Herbal Skin Salve!

TY2520 (2 oz.) \$12.80

Diaper Balm "Organic"

Being a brand new human is tough — so diaper cream should be as gentle as it is effective. And while we're calling this Organic Diaper Balm, it's so much more. Think extraordinarily soothing calendula diaper balm, so your baby's bottom can stay the way it's meant to be: chubby-soft and cheerful-cheeked! A QUICK HOW-TO: Just apply a thin coat to the diaper area after each change and bath. Also, Organic Diaper Balm doubles as a multi-tasking skin salve. Feel free to use it from top to bottom for everyone in the family. Slather as needed, seal it with a kiss* and send 'em on their way.

**Endovan TOP SELLER**

Endovan works with your body to target the root of the problem and has historically been used for high blood pressure, preeclampsia, endometriosis, fibroids, ovarian cysts, and breast lumps. Many women's reproductive health issues are caused by the body's inability to break down excess fibrin. This unhealthy fibrin plays a major role in the development and exacerbation of fibroids, ovarian cysts, endometriosis, and breast lumps. Endovan's unique formulation is designed to naturally boost your body's ability to target and degrade excess fibrin and relieve the associated adverse symptoms. What To Expect; Results will depend on the severity of your symptoms but some women notice improvement in the first one to two months with continued progress in subsequent months. Important: While successful for the majority of users, not all women respond to Endovan. Stop use while having your period then continue afterward. Can also be used by men.

Designed to support normal hormone levels as well as uterine and breast health. Fibrovera is a gentle option that corrects and maintains healthy hormone levels. It's an all-natural blend of hormone-balancing botanicals and enzymes designed to help women with hormonal irregularities. Fibrovera also provides fibrinolytic (fibrin-eating) enzymes and co-factors that are specifically selected to promote normal fibrin activity. How Fibrovera Works; Fibrin is the building block of scar tissue and one of the main components of uterine fibroids, fibrocystic breast disease, and endometriosis. Healthy hormone levels will naturally promote normal fibrin activity as well as support normal premenstrual symptoms. Fibrovera is intended to regulate the hormonal response, restoring natural processes in a woman's body. Each ingredient was carefully selected using only well-researched, clinically supported ingredients.

Hot flashes, mood swings, and other normal symptoms of menopause and peri-menopause may be uncomfortable, but that doesn't mean you have to live with them. Transitions™ exclusive formula is supportive for menopausal women, with the added benefit of adrenal gland support.* As menopause nears, hormone production slows, which can place more demands on the adrenal glands. While ingredients like isoflavones can help support normal hormone levels and calm menopausal symptoms, they do nothing to strengthen the adrenal glands. Hot flashes, mood swings, fatigue and other normal menopausal symptoms are uncomfortable on their own, but related adrenal weakness can cause lack of energy, fatigue, occasional difficulty in sleeping, and decreased libido.*

Female Hormone System

Hormones are products secreted by some organs which circulate throughout the blood system and react upon other cells. This reaction could be secreting milk, menstruation, proper cellular growth, etc. The more common organs (glands) involved in the reproductive hormone system are the pituitary, pineal, hypothalamus, thyroid, breast, adrenal, pancreas, ovaries, and uterus. All these organs constantly work with one another in keeping a marvel of chemical hormonal balance in a continually changing mind and body environment. Platt PRO 5% Progesterone Cream **TOP SELLER**

A major benefit of this cream is that it has been specially formulated to provide maximal effectiveness. An advantage of using progesterone in a cream form is that people can adjust the amount they use in accordance with the benefit they are seeking. After awhile, one should notice that they are able to lower the amount originally used. Recommended Dose Strength: 50 mg per pump Apply 1/2-1 pump to inside of one forearm and rub forearms together Do this up to 3 times a day, 1-3 minutes before meals. If you have trouble sleeping at night, it is recommended that you eat a low-glycemic carbohydrate just before going to bed. In addition, apply the cream again just before eating your bedtime snack.

We value your input. Feel free to list testimonials, suggestions etc. on how we could better serve you. Thank you for your business, we look forward to serving you!

A Glimpse Into NewLight Health

At NewLight Health, we are grateful to our customers for their dedication and support. We recognize without you, there would be no company.

We are also very grateful to have a dynamic and devoted NewLight Health team, committed to helping others live healthier lives.

We could not reach as many customers, or help as many people, without the hard work and commitment of many individuals working behind the scenes at NewLight Health to fulfill our business mission.

When **Amos Stoltzfus, Jr.** helped start the company in 2012, it would be hard for him to imagine the many families connected to NewLight Health today. Amos works to ensure his teams and systems are running optimally to provide the products and services customers need. He is humbled to be of service to God, and to the wonderful NewLight Health community, customers, and team.

*Our friendly staff is
standing by, ready
to take your call!*

MEET OUR TEAM

ROSALIE GEHMAN

Health Coach

Rosalie can often be found studying about health or on the phone, helping others through their own health challenges or concerns. She is happy to answer questions and provide guidance on most NewLight Health products.

JOHN SMUCKER

Purchasing

John works hard to ensure necessary products are close at hand for our customers. He strives to swiftly fulfill new product requests that meet our standards. He ensures that we're sourcing quality products for our customers.

LEROY KING

Marketing/Educational Content Manager

Leroy enjoys helping our customers get the clear, helpful information they are looking for. By organizing all our educational and marketing content, he plays a key role in fulfilling our mission—equipping customers with resources that gives them the ability to make informed decisions.

CUSTOMER SUPPORT TEAM

Do you have a question/or questions about a certain order/invoice? Would you like to place an order without calling? One of the four ladies from the Customer Support team is behind the desk five days a week, entering fax, email, and text orders. Feel free to call, fax, text, or email the 'Customer Support' team about any unfulfilled orders, refunds, returns, damaged items, payments, shipments, etc.

SALES TEAM

Our dedicated sales team is standing by ready to assist you with your order. They strive for accuracy and detail while taking your information to ensure your order gets shipped to the correct address and that you get the items you ordered.

FULFILLMENT TEAM

Our fulfillment team does their best to ensure that your order is processed accurately and promptly. Their daily goal is to ship all orders received by 2pm the same day they are received.

FROM OUR ENTIRE TEAM,

Thank you for reading and for your support. We appreciate our community of customers, and if there is anything you need, please ask. It is only by the Grace of God that we can fulfill our mission to help our communities live healthful lives.

God Bless.
